Warranty Disclosure

If anything goes wrong with your new XL-100 set within one year from the day you buy it—and it's RCA's fault—RCA will pay your local RCA Authorized Service Center its regular labor charge to fix it and make available new or, at RCA's option, rebuilt replacements for defective parts.

If your set is a portable with a model number beginning with "P", you will come to your home. Just present your warranty registration card to your RCA Authorized Service Center agent and RCA pays the repair bill. If your picture tube becomes defective within two years from the day you buy the set, it will be replaced for a new or, at RCA's option, a reliable rebuilt tube in the first year. RCA pays labor and installation charges, in the second year you do.

The warranty doesn't cover set installation or set up, antenna systems, adjustments of customer controls or foreign use.
