FORMERLY MARCO'S

It pays to know a DETROIT BANK-er better.

"I can show you how \$5,000 can grow to more than \$7,800 in just 6 years."

For the saver with long-range investment goals, there's nothing safer than the high-interest, guaranteed savings of Investment Certificates at Detroit Bank & Trust. DETROIT BANK-er Dorothy Finzel, Officer-in-Charge of the Grand River-Redford office, can tell you about them.

I have \$5,000 to invest. What's the best deal you can offer?
 "Detroit Bank & Trust doesn't offer any 'get rich quick' schemes...but if you are willing to leave at least \$1,000 untouched for a full six years in a 7-1/2% annual rate Investment Certificate, you will get the highest annual bank interest rate allowable under law. For example, if you invest \$5,000, letting the interest accumulate—compounded quarterly—you'll get \$7,808.96 back after 6 years. And, the safety of your funds is guaranteed to \$40,000 by the Federal Deposit Insurance Corporation, and in any amount by the 126 years of continuous service of Detroit Bank & Trust."

Just what is an Investment Certificate?
 "Rather than a passbook savings account which you may add to or withdraw from in any amount at any time, an Investment Certificate is a one-time purchase for a fixed amount of \$1,000 or more, issued for a specific amount of time, from one to six years."

Will I get a good return for my investment?
 "Definitely. Certificates are compounded quarterly and return annual interest rates, from 6% to 7-1/2% depending on how long you hold them. For instance, a one-year, savings certificate earns 6%, while a six-year investment certificate works for you at an annual rate of 7-1/2%."

What happens if the annual rate changes while I'm holding a certificate?
 "All interest rates on certificates are guaranteed for the term of issue. So if you've purchased a 6-1/2% annual rate certificate, you'll get a return of 6-1/2% each year for the 2-1/2 years you hold that certificate. Certificates are not automatically renewable so any rate change will be reflected at the time you choose to renew it."

Suppose I have to cash in my certificate before it reaches maturity?
 "You are free to cash in your certificates at any time prior to maturity; however, Federal regulations require us to reduce the rate on the entire certificate amount redeemed to the current regular passbook rate and deduct 3 months' interest. So, it's definitely to your advantage to fulfill the terms of the certificate."

I guess it really pays to get to know a DETROIT BANK-er better!
 "Absolutely. We're here to give you reliable information on any financial matter...and we think we can help you, build your savings wisely. Come in and see us. You'll find that the real difference in banks is the banker and that's why you ought to know a DETROIT BANK-er better."

DETROIT BANK & TRUST
 Member FDIC

"A \$5,000, 7-1/2% Investment Certificate held for six years, compounded quarterly, letting the interest accumulate, will build to more than \$7,800."

"An Investment Certificate is a one-time purchase for a fixed amount of \$1,000 or more, for a specific period of time, that returns annual rates of from 6% to 7-1/2% depending on how long you hold it."

"We're here to give you reliable information on any financial matter...and we think we can help you build your savings."
