

(Continued from Page 39)

Batteries with liquid electrolyte are not acceptable for mailing.

If your gifts are expected by Christmas it's good to adhere to the post office's suggested deadlines for mailing.

Some of the deadlines have passed but there are still time for: —space available mail (due Nov. 20) to armed forces in Belgium, Denmark, England, Finland, France, Germany, Greece, Italy, Norway, Netherlands, Portugal and Spain, Antarctica, Australia, Indonesia, Japan, Korea, New Zealand, Okinawa, Philippines, Taiwan and Thailand.

—surface mail and space available mail (due Nov. 25) to armed forces in Canada, Greenland, Labrador, Newfoundland and the Azores; —all surface parcels to Alaska and Hawaii (due Nov. 30)

If you prefer, your package can be mailed by one of the private companies operating in the area.

United Parcel Service (UPS) has local offices in Clawson, Pontiac, Livonia and Detroit. However, they will pick up your package for a \$2 charge plus the shipping cost.

It was suggested that you allow four to five working days for the UPS ground service to reach the west coast and two to three days to reach the east coast. That does not include Saturday or Sunday or the day the package is dropped off.

Charge for shipping via UPS depends on the weight, destination and, partially, on size.

Emery Air Freight, which operates out of Metropolitan Airport, can deliver most packages overnight. However, they suggested allowing a few days delivery time in the event airports are closed due to weather conditions.

The rates are determined on a graduated scale, with the price per pound decreasing as the weight increases. When ready to ship and get a specific charge for the package.

They also have a pickup service, with the rate determined on where you live.

REA air express will not be handling any holiday mail. The company is liquidating and going out of business.
