Teeth tell deer's age

Like horses, deer have milk teeth and permanent teeth that are in by age two. It's hard, however, for anyone but an expert to tell the age of a deer more than 1 1/2 years old. If you're a successful hunter, stop at a state roadside biological deer checking station to have your deer examined; they're listed in your hunting rules.

Auto driving costs jump 10 per cent

The cost of driving for Michigan motorists has increased nearly 10 per cent in the last year, according to Automobile Club of Michigan.

"It now costs state motorists 18.3 cents a mile to operate their cars compared to 16.6 cents per mile in 1974," stated Joseph Ratke, Auto Club touring manager.

Data on the expenses of operating a motor vehicle are included in the 1975-76 edition of the AAA pamphlet, "Your Driving Costs." Information is based on driving a 1975 intermediate-size Chevrolet, an eight-cylinder Malibu Classic hardtop with standard equipment and an automatic transmission.

over costs for an intermediate-size auto last year," Ratke said.

AN AUTO driven 20,000 miles will cost \$2,636, or about 13.2 cents per mile. The reason for the lower cents-per-mile figure at 20,000 miles is that fixed costs (insurance, depreciation and license fee) remains about the same as for 10,000 miles.
