CHEYENNE BRIDES ... Jim Fergus's first novel, One Thousand White Women: The Journals of May Dodd, depicts an 1875 incident in which President Ulysses S. Grant and Cheyenne Nation Chief Little Wolf agreed to the Brides for Indians treaty to help solidify relations between the whites and the Indians. Women recruited from mental hospitals and prisons were offered full pardons to stay with the Cheyenne for two years, bear children, and then be free to leave, alone. Having been committed to an insane asylum by her father because she fell in love with a man beneath her station, May Dodd saw this as her only option for freedom and some kind of life. Her journal tells of her life with the Cheyenne, revealing her strength, courage, and sense of humor. She discusses both the good and evil in whites and Indians alike and issues that are still relevant today. Jim Fergus didn't set out to write "One Thousand White Women: The Journals of May Dodd." He thought he was doing research for a book on the Northern Cheyenne Indians. But he came across a historical grain of sand from which his imagination eventually produced a pearl.

He read about the bold but naive plan the Northern Cheyenne Indians proposed to the U.S. government: Send them 1,000 white women to marry their braves. The Cheyenne hoped that their half-white, half-Cheyenne babies would ultimately be accepted into white society.

"I came across that reference and couldn't get it out of my mind," Fergus said from his winter home in the Florida panhandle. "I was fascinated by the whole concept. From (the Cheyenne's) world view, it was an incredibly ingenious and bold plan."

Fergus, a Colorado College graduate, began researching his tale, reading everything he could find about the world of 120 years ago. "I spent a lot of time researching the voice of that period," he said.

"I tried to find the fine line between being too formal and making it more accessible. I read dozens of frontier diaries of pioneer women crossing the Great Plains, and they all had a certain common voice that I tried to use as a model. ... What comes through is the incredible hardship and deprivation and desensitization. They would write about a child's death and there wasn't a lot of time for literary flourishes."

His agent began shopping around Fergus' first 100 pages, which took the story to the point where the women meet their prospective husbands.

The manuscript was turned down by 10 or 12 publishers, although there were a few nibbles.

"Editors weren't confident I was going to be able to pull it off," Fergus said.

He also spent months exploring the Great Plains to familiarize himself with the setting of his story, which sprawls from Chicago and the Black Hills to Wyoming and Montana.

"It's impossible to drive across the Plains without thinking about the people who inhabited it," he said. "The Cheyennes believe that whatever happened in a place lives on."

The whole process took five to six years. Fergus also had to make a living as a free-lance writer for publications, including Outside magazine.

Fergus, who also has a home in Rand, west of Rocky Mountain National Park, graduated from Colorado College in 1971 with a degree in English. He knew long before he entered college that he wanted to be a writer.

He credits CC's block system with immersing him in great American writers such as John Steinbeck, Willa Cather and Mark Twain.

When St. Martin's Press decided to publish "One Thousand White Women," Fergus had to stand fast to retain the heartfelt letters his heroine, May, writes to her children.

"My editor wanted me to cut the letters out," he said. "My experience is that editors are right about 85 percent of the time. So I fought to leave that in."

And how was a 48-year-old man able to get inside the mind of a 25-year-old woman? Fergus laughs about suggestions he "got in touch with his feminine side."

"May's voice just came to me. ... It was much harder to write from the Native American point of view," he said. "I'm not saying it was easy to write in her voice. It's more that it came naturally."

May and her friends and enemies took over his life. They became flesh and blood in his mind.

"I kept leaping up in the middle of the night to write down pieces of dialogue they spoke to me," he said. "I came to see the characters as friends, living people."

Reviews for this Title:
Booklist Review: An American western with a most unusual twist, this is an imaginative fictional account of the participation of May Dodd and others in the controversial "Brides for
Indians" program, a clandestine U.S. government-sponsored program intended to instruct "savages" in the ways of civilization and to assimilate the Indians into white culture through the offspring of these unions. May's personal journals, loaded with humor and intelligent reflection, describe the adventures of some very colorful white brides (including one black one), their marriages to Cheyenne warriors, and the natural abundance of life on the prairie before the final press of the white man's civilization. Fergus is gifted in his ability to portray the perceptions and emotions of women. He writes with tremendous insight and sensitivity about the individual community and the political and religious issues of the time, many of which are still relevant today. This book is artistically rendered with meticulous attention to small details that bring to life the daily concerns of a group of hardy souls at a pivotal time in U.S. history. ((Reviewed March 1, 1998)) -- Grace Fill

Kirkus Reviews Long, brisk, charming first novel about an 1875 treaty between Ulysses S. Grant and Little Wolf, chief of the Cheyenne nation, by the sports reporter and author of the memoir A Hunter's Road (1992). Little Wolf comes to Washington and suggests to President Grant that peace between the Whites and Cheyenne could be established if the Cheyenne were given white women as wives, and that the tribe would agree to raise the children from such unions. The thought of miscegenation naturally enough astounds Grant, but he sees a certain wisdom in trading 1,000 white women for 1,000 horses, and he secretly approves the Brides For Indians treaty. He recruits women from jails, penitentiaries, debtors' prisons, and mental institutions—offering full pardons or unconditional release. May Dodd, born to wealth in Chicago in 1850, had left home in her teens and become the mistress of her father's grain-elevator foreman. Her outraged father had her kidnapped, imprisoning her in a monstrous lunatic asylum. When Grant's offer arrives, she leaps at it and soon finds herself traveling west with hundreds of white and black would-be brides. All are indentured to the Cheyenne for two years, must produce children, and then will have the option of leaving. May, who keeps the journal we read, marries Little Wolf and lives in a crowded tipi with his two other wives, their children, and an old crane who enforces the rules. Reading about life among the Cheyenne is spellbinding, especially when the women show up the braves at arm-wrestling, foot-racing, bow-shooting, and gambling. Liquor raises its evil head, as it will, and reduces the braves to savagery. But the women recover, go out on the winter kill with their husbands, and accompany them to a trading post where they drive hard bargains and stop the usual cheating of the braves. Eventually, when the cavalry attacks the Cheyenne, mistakenly thinking they're Crazy Horse's Sioux, May is killed. An impressive historical, terse, convincing, and affecting.

"Sidelights"

Jim Fergus, a freelance writer and outdoorsman, left his home in Colorado in September, 1990, and began a trip east to New England, south to Florida, and west toward home, crossing all the states in between and following the bird-hunting seasons of each location as he went. Fergus and his dog, Sweetzer, traveled seventeen thousand miles hunting twenty-one species of game birds, camping, and joining up with other hunters and their dogs along the way. A Hunter's Road: A Journey with Gun and Dog Across the American Uplands is Fergus's account of his five-month trip. John Haines wrote in the New York Times Book Review that it is "an odd sort of trek, boyish and enthusiastic, contemplative, reminiscent, and revealing of character. The writing at its best has an attractive honesty and immediacy." Fergus begins each chapter with a quote relating to hunting or conservation. He offers recipes for cooking the game birds, including roasting them over an open fire. Haines found the best chapters to be Fergus's portraits of people, including those of artist Russell Chatham of Montana and Blackfoot Indian Joe Kipp. Booklist reviewer Alice Joyce called A Hunter's Road "an engrossing account infused with love of the wilderness." A Publishers Weekly reviewer called it "a fine travel-and-adventure tale, both for hunters and readers who enjoy the outdoors."

Fergus introduces his novel, One Thousand White Women: The Journals of May Dodd, by saying that in 1854, Cheyenne Chief Little Wolf requested one thousand white women from the U.S. Army to be brides for his young men. The book is a fictional account of a
"Brides for Indians" treaty reached between President Ulysses S. Grant and the Cheyenne, as told by one May Dodd. The women are recruited from prisons and mental hospitals and offered pardons to spend two years with the Cheyenne, bear their children, and then have the freedom to leave, alone. May, who was committed to an asylum by her father as punishment for falling in love with someone beneath her class, willingly volunteers, feeling life with the Indians would have to be better than life in a mental hospital. On the trip west with the other brides, May finds herself attracted to both a U.S. Army captain and a Cheyenne chief. "By painting symmetrical portraits of White and Indian brutality, Fergus skillfully renders May's choice moot," wrote a Publishers Weekly reviewer, who said May and the other brides become "the most noble characters in this imaginative tale." Library Journal reviewer Shirley E. Havens said the journal reveals May's "strength, courage, and sense of humor." Booklist reviewer Grace Fill felt that in addressing religious, political, and community issues, Fergus "writes with tremendous insight and sensitivity," and said he "is gifted in his ability to portray the perceptions and emotions of women."

In The Sporting Road: Travels Across America in an Airstream Trailer, with Fly Rod, Shotgun, and a Yellow Lab Named Sweetzer, Fergus's essays span six years of bird hunting and fishing across the United States. John Rowen wrote in Booklist that Fergus's remarks about the problems being faced by farms and rural communities "bring a touch of social consciousness to the easygoing, personable memoir." Fergus talks about the people he and Sweetzer have met along the way. He notes that the conservation movement was initiated by hunters such as President Theodore Roosevelt and that hunting poses a minimal threat to animal populations in comparison to that of chemical farming, overgrazing, and development. A Publishers Weekly reviewer wrote that "perhaps befitting a sportsman, Fergus has a spare writing style and uses only what he needs. The result is a light and enjoyable collection of tales."

About the Book

One Thousand White Women is the story of May Dodd and a colorful assembly of pioneer women who, under the auspices of the U.S. government, traveled to the western prairies in 1875 to intermarry among the Cheyenne Indians. The covert and controversial "Brides for Indians" program, launched by the administration of Ulysses S. Grant, is intended to help assimilate the Indians into the white man's world. Toward that end May and her friends embark upon the adventure of their lifetime. Jim Fergus has vividly depicted the American West that it is as if these diaries are a capsule in time.

Reading Group Guide Questions

1. The Cheyenne are often referred to as "savages," even by the women who voluntarily travel to live among them. During this time period, what is it that makes the Cheyenne savage, and the white "civilized"? Are there ways in which you would judge the Cheyenne in the novel more civilized than the whites? Are there ways in which you consider them less civilized?
2. Were you surprised that Little Wolf, the Cheyenne chief, was so aware and seemingly resigned to the fact that his culture was doomed? How does this differ from our attitudes and assumptions as U.S. citizens?
3. Did you admire May Dodd's rebelliousness? Did you find it shocking that she would leave her children behind? Do you consider her a sympathetic character?
4. Did you find it believable that the U.S. government might undertake a covert project such as the "Brides for Indians" program? Do you think the author had more modern history in mind when he developed this idea?
5. Were you surprised by elements of the Cheyenne culture as depicted here?
6. Do you think that the Cheyenne culture was respectful of women? Consider what might seem contradictory elements—for example, it is a matrilineal society, and yet warriors could have multiple wives.
7. Compare what the Cheyenne culture valued in women compared with what white culture at the time valued in women. Contrast Captain Bourke's fiancée, Miss Lydia Bradley, with May Dodd. In what ways, do May and Lydia represent different types of women? In what ways have cultural expectations of women changed since this time period, and in what ways have they remained the same?
8. Did you find it believable that the white women embraced the Cheyenne culture, and willingly married with them?
9. Compare your concept of romantic love, and married love, with the relationship that develops between May and Little Wolf. Were you surprised by the violence among tribes as depicted here? Did it contrast with your understanding of Native American culture? What similarities were there between the violence among tribes, and the violence between whites and Native Americans?
10. While depicting the daughter of Native American culture, Jim Fergus also portrays the imminent destruction of the natural landscape. Consider both tragedies. Were they equally inevitable? Are they equally irreversible?

Author Q&A

An Interview with Jim Fergus

Q: You were a nonfiction writer for most of your career—primarily about hunting and fishing. What inspired you to write fiction?
A: To clarify the first part of that question: I got sort of typecast as a "hook & bullet" writer later in my journalism career, but I actually started out doing general interest journalism—essays, literary and celebrity profiles, interviews, environmental writing, etc. From the very beginning, from the time I was twelve years old, I had always intended to become a novelist. All my role models were fiction writers, and after I got out of college I wrote a bunch of short stories and submitted them to the magazines, certain that I was going to get discovered. And I wrote an unpublished (and unpublishable) novel. It did not take long for me to figure out that I wasn't going to be able to make a living doing this, and so I became a teaching tennis pro, which was the only other thing I knew how to do.

I worked in that profession for a full decade, during which time I wrote yet another unpublished novel. Finally at age thirty, I had put together a little stake, about $6,000, in those days still seemed like a lot of money. I retired from tennis and started freelance writing full-time. Of course, the Catch-22 of that business is that in order to make even a modest living at it you have to work all the time; when you're not working on an assignment you're trying to drum up new assignments. It's a very hand-to-mouth existence, not unlike being an itinerant farm laborer, and simply did not allow me any free time for fiction writing. So that old childhood dream was relegated very much to the back burner.

Suddenly I found myself in my mid-forties and it occurred to me that I wasn't any closer to being a novelist than I had been in my twenties. I came upon the idea for One Thousand White Women while researching what I thought was going to be a nonfiction book about the Northern Cheyenne Indians. An old friend of mine who had some money loaned me enough to take a year away from journalism and write the novel.

Q: You seem to have a great deal of familiarity with the landscapes as well as the cultures you write about. What kind of research have you done for your novels?
A: Well, I always start with the landscape, and the research there is simply a kind of accrual of experience in a place. I need to have a certain familial sense of the land in order to situate a novel in it. In the case of One Thousand White Women, I had traveled extensively in the northern Great Plains in the course of my magazine work, and I really knew and loved that country.

With The Wild Girl I was less familiar with the landscape of southern Arizona and northern Mexico. But I had recently moved to the Southwest and had already spent enough time down there to know that I would come to love that country, too. The northern Sierra Madre mountains are incredibly
rugged and spectacular, and I made several trips down there, traveling through the Mexican states of Sonora and Chihuahua. I took a horse pack trip up into the mountains with a Mormon outfitter out of Colonia Juarez, Chihuahua, just to get the lay of the land. And in order to be able to write the scene in which the wild girl is captured, I also went on a mountain lion hunt on mullock with a rancher who hunts lions with a pack of bound dogs.

Because of my background in journalism, I tend to be very hands-on that way; I really need to see and experience these things before I can write about them. As to the cultural research, I felt a tremendous responsibility to know as much as I possibly could about the respective cultures and histories of the Northern Cheyennes and the Apaches in order to be able to write as truly and accurately as I could about them. For me the research takes as long as the actual writing of the novel.

Q: Some of your most memorable characters are female—May Dodd in One Thousand White Women; the wild girl and Margaret in The Wild Girl. Do you enjoy writing from a female perspective? What kind of challenges does it present you as a writer?

A: I enjoy writing from the female perspective. As a male writer, I find that it takes you completely outside of yourself, offering a kind of clean canvas, a completely fresh point of view free of your own ego, opinions, and prejudices. It's quite liberating in that way.

I’ve never been particularly interested in writing fiction about myself or in having myself as the protagonist of my novels, and I find that any time a male writer writes from a male perspective, the author's own point of view inevitably bleeds through the character—which is not necessarily a bad thing, either. The challenge, of course, in writing from the perspective of the opposite sex is to try to do so credibly.

Q: When Westerns first became popular, Native Americans were frequently portrayed as savage villains. Then the tide turned and Native Americans were often depicted as noble and victimized. You depict Native American cultures with a great deal of texture and complexity. The Cheyenne in One Thousand White Women, for instance, are being decimated by the U.S. government, but they also commit terrible acts of violence against other tribes. Do you think the politics of the way Native Americans have been treated when you write, or do you try to put that aside and just tell the story?

A: One of the things I’ve heard from Native Americans who have read my novels is that they appreciate the fact that I try to avoid portraying them as one or the other of those one-dimensional stereotypes—either as the villain or the noble savage. Of course, the truth is that they’re human beings like the rest of us, capable of tremendous savagery as well as great beauty and spirituality.

The revisionist notion of Native American history has it that all the tribes were living together in harmony, each in its own inviolable region, until the evil white man came along to steal their perfect way of life. But the reality is that long before we showed up, these native tribes were, with some exceptions, warrior societies who had fought each other for centuries.

As always in nature, the stronger had pushed the weaker out; they had enslaved each other and committed terrible atrocities. This is not to forgive or excuse our treatment of Native Americans, which remains one of the most shameful chapters in our nation's history.

As to the politics of this, it’s hard to write about the subject, even fictionally, without touching on it, but I certainly don’t set out to write political manifestos or polemics. My main goal as a novelist is simply to tell a good tale, and if readers also find a point in my novels, that’s fine, too.

Q: You write a great deal about morals. For instance, in One Thousand White Women May Dodd is judged an immoral woman, the Cheyenne are judged as immoral savages. In The Wild Girl, Billy Flowers is depicted as having a very clear moral code, for better or worse, in great contrast with those around him. What is it about morality that fascinates you?

A: I’m interested in the sort of quicksilver, subjective nature of morality, the idea that virtually every culture, every religion, and even each era, has its own rather specific set of rules for it. And I also find fascinating the nearly desperate need that human beings have to impose their own particular version of morality upon others, to the point that we’re willing to slaughter each other in the name of our own moral codes.

At the same time, we have a tremendous capacity to rationalize our own behavior as moral, no matter how despicable it might be. What is more grotesque, for instance, than the killing of babies and children? And yet every nation does it under the banner of morality.

Q: What do you most enjoy about writing novels? What do you find the most difficult?

A: The first part of that question I’m going to answer with a quote from Gustave Flaubert that I have thumbtacked on the wall beside my writing desk:

“It is a delicious thing to write, to be no longer yourself but to move in an entire universe of your own creating. Today, for instance, as man and woman, both lover and mistress, I rode in a forest on an autumn afternoon under the yellow leaves, and I was also the horse, the leaves, the wind, the words that my people uttered, even the red sun that made them almost close their love-drowned eyes.”

How could I say it any better than that? What I find most difficult is creating that universe.

Q: What do you read when you’re not writing? Who are your favorite authors?

A: Like many novelists, I’m unable to read fiction when I’m writing it, so we’re easily influenced by other voices. And because I’m almost always writing I’m afraid I’ve gotten way behind on my reading, particularly of contemporary fiction.

While I was writing The Wild Girl, however, I actually reread Anna Karenina, because I was pretty sure that I wouldn’t start writing in Tolstoy’s voice. And I was struck once again by what an enormous novel that is (and I don’t mean just in terms of page length, though it is a doorstopper). What a truly omniscient performance; the characters of all ages, sexes, classes, professions are all such individuals, so vivid and perfectly rendered, such complete and “real” human beings. I was humbled and stunned all over again by Tolstoy’s greatness.

Right now I’m in the middle of writing a new novel, and I recently decided to reread Flaubert’s (whom I also revere) Madame Bovary. I also love Knut Hamsun. And in terms of living authors, who’s greater than Gabriel García Márquez? Although I don’t care read him when I’m writing. My other favorites are too numerous to mention.

Q: Can you recommend some books for fans of your novels who would like to get even more perspective and historical background on the time period, cultures, and events that you depict in your novels?

A: Partly for that purpose, I’ve included extensive bibliographies at the end of both novels. But if I had to recommend just one book to provide historical background about the Indian wars in both the Great Plains and the Southwest, it would have to be Captain John G. Bourke’s On the Border with Crook. Bourke was General George Crook’s aide-de-camp and a fine amateur ethnographer in his own right. He participated in almost all of the important events and military campaigns against both the Cheyennes and the Apaches. It’s an absolutely fascinating true account of that era.

A Note on Jim Ferguson

Jim Ferguson was born in Chicago on March 23, 1950. He attended high school in Massachusetts and graduated as an English major from Colorado College in 1971. He has traveled extensively and lived over the years in Colorado, Florida, the French West Indies, Idaho, France, and Arizona. For ten years he worked as a teaching tennis professional in Colorado and Florida, and in 1980 he moved to the tiny town of Ruidoso, Colorado (pop. 13), to begin his career as a full-time freelance writer. He was a contributing editor to Rocky Mountain Magazine, as well as a correspondent for Outside magazine. His articles, essays, interviews, and profiles have appeared in a wide variety of national magazines and newspapers, including Newsweek, Newsday, the Denver Post, the Dallas Times Herald, Harrowsmith Country Life, The Paris Review, MD Magazine, Savvy, Texas Monthly, Esquire, Fly Fisherwoman, Outdoors Life, Sports Afield, and Field & Stream. His first book, a travel/sporting memoir titled A Hunter's Road, was published by Henry Holt in 1999. Writing in the Los Angeles Times, Jonathan Kirsch called A Hunter's Road, "An absorbing, provocative, and even exhilarating book."

Ferguson's first novel, One Thousand White Women: The Journals of May Dodd was published by St. Martin's Press in 1998. The novel won the 1999

Fiction of the Year Award from the Mountains & Plains Booksellers Association, and has become a favorite selection of reading groups across the country. It has since sold over 250,000 copies in the United States. An international bestseller, One Thousand White Women (Milles Femmes Blanches) was also on the French bestseller list for fifty-seven weeks and has sold well over 400,000 copies in that country.

In 1999, Jim Fergus published a collection of outdoor articles and essays, titled The Sporting Road. In the spring of 2002, his second novel, The Wild Girl. The Notebooks of Ned Giles was published by Hyperion Books. Historical fiction set in the 1930's in Chicago, Arizona, and the Sierra Madre of Mexico, The Wild Girl has also been embraced by reading groups all across the United States. Winston Groom, author of Forrest Gump, called it, "an exhilarating and suspenseful tale that makes the heart soar."

Jim Fergus is currently working on a new novel, a family historical fiction involving his French mother and grandmother, and spanning the first two-thirds of the twentieth century. He presently lives in southern Arizona.

Praise

"A most impressive novel that melds the physical world to the spiritual. One Thousand White Women is engaging, entertaining, well-written, and well-told. It will be widely read for a long time, as will the rest of Jim Fergus's work." --Rick Bass, author of Where the Sea Used to Be

"Jim Fergus knows his country in a way that's evocative Dee Brown and all the other great writers of the American West and its native peoples. But One Thousand White Women is more than a chronicle of the Old West. It's a superb tale of sorrow, suspense, escalation, and triumph that leaves the reader waiting to turn the page and wonderfully wrung out at the end." --Winston Groom, author of Forrest Gump

"The best writing transports readers to another time and place, so that when they reluctantly close the book, they are astonished to find themselves returned to their everyday lives. One Thousand White Women is such a book. Jim Fergus so skillfully envelops us in the heart and mind of his main character, May Dodd, that we weep when she mourns, we shake our fist at anyone who tries to sway her course, and our hearts pound when she is in danger." --Colorado Springs Gazette

"An impressive historical...terse, convincing, and affecting." --Kirkus Reviews

"In 1854 at a peace conference at Fort Laramie," Fergus writes in his introductory note, "a prominent Northern Cheyenne chief requested of the U.S. Army authorities the gift of one thousand white women as brides for his young warriors." The soldiers were appalled, but first-time novelist Fergus, a writer for Outside magazine and author of a work of nonfiction (A Hunter's Road), seizes the opportunity to explore what might have happened if the president of the United States had agreed to a covert "Brides for Indians" program. Fergus's rendition includes a unique bevy of not always blushing brides; a jolly British ornithologist; bawdy twin prostitute sisters from the Illinois State Penitentiary; a bovine Swiss chambermaid; and a black warrior princess. May Dodd, age 23, whose wealthy Chicago family has condemned her to life in a lunatic asylum as punishment for a love affair, is one of the first to volunteer. "From the way I've been treated by the so-called 'civilized' people in my life, I rather look forward to residency among the savages." If only life were so simple. Instead, on the way west with the bridal brigade, May finds herself torn between their leader, a cultured U.S. Army captain, and an accompanying Cheyenne chief. By painting symmetrical portraits of white and Indian brutality, Fergus skillfully renders May's choice moot. She and the other brides rise from the underbelly of society, becoming the most noble characters in this imaginative tale of the American West reeling under the decline of one culture and the forcible ascent of another. About This Book

One Thousand White Women begins with May Dodd's journey west into the unknown. A government program, in which women are brought west as brides for the Cheyenne, is her vehicle. What follows is the story of May's adventures: her marriage to Little Wolf, chief of the Cheyenne nation, and her conflict of being caught between two worlds, loving two men, living two lives. Jim Fergus has so vividly depicted the American West that it is as if these diaries are a capsule in time.

Discussion Questions

1. One Thousand White Women was written by a man, but in a woman's point of view. Did you find this convincing?
2. In 1875, rebellious or unorthodox women were sometimes considered "hysterical" or insane. Is this still true in some circumstances today?

3. Does May Dodd remind you of a modern-day woman?

4. What would be today's equivalent of traveling west to an unknown part of the country with a group of strangers?

5. Did you feel the Native Americans were accurately portrayed in the novel?

6. If the "Brides for Indians" program were actually put into effect in 1875, do you feel it would have been effective?

7. What circumstances would prompt you to undergo a journey like the one May Dodd took?

8. Do you consider One Thousand White Women a tragic story? If so, why? If not, why not?

9. Of the supporting female characters, who did you find the most likeable?

10. Were any of May Dodd's actions unsympathetic? Would you find it difficult to leave your children behind in order to escape a horrendous situation?

"Sidelights"

Jim Fergus, a freelance writer and outdoorsman, left his home in Colorado in September, 1990, and began a trip east to New England, south to Florida, and west toward home, crossing all the states in between and following the bird-hunting seasons of each location as he went. Fergus and his dog, Sweetzer, traveled seventeen thousand miles hunting twenty-one species of game birds, camping, and joining up with other hunters and their dogs along the way. A Hunter's Road: A Journey with Gun and Dog Across the American Uplands is Fergus's account of his five-month trip. John Haines wrote in the New York Times Book Review that it is "an odd sort of trek, boyish and enthusiastic, contemplative, reminiscent, and revealing of character. The writing at its best has an attractive honesty and immediacy." Fergus begins each chapter with a quote relating to hunting or conservation. He offers recipes for cooking the game birds, including roasting them over an open fire. Haines found the best chapters to be Fergus's portraits of people, including those of artist Russell Chatham of Montana and Blackfoot Indian Joe Kipp. Booklist reviewer Alice Joyce called A Hunter's Road "an engrossing account infused with love of the wilderness." A Publishers Weekly reviewer called it "a fine travel-and-adventure tale, both for hunters and readers who enjoy the outdoors."

Fergus introduces his novel, One Thousand White Women: The Journals of May Dodd, by saying that in 1854, Cheyenne Chief Little Wolf requested one thousand white women from the U.S. Army to be brides for his young men. The book is a fictional account of a "Brides for Indians" treaty reached between President Ulysses S. Grant and the Cheyenne, as told by one May Dodd. The women are recruited from prisons and mental hospitals and offered pardons to spend two years with the Cheyenne, bear their children, and then have the freedom to leave, alone. May, who was committed to an asylum by her father as punishment for falling in love with someone beneath her class, willingly volunteers, feeling life with the Indians would have to be better than life in a mental hospital. On the trip west with the other brides, May finds herself attracted to both a U.S. Army captain and a Cheyenne chief. "By painting symmetrical portraits of White and Indian brutality, Fergus skillfully renders May's choice moot," wrote a Publishers Weekly reviewer, who said May and the other brides become "the most noble characters in this imaginative tale." Library Journal reviewer Shirley E. Havens said the journal reveals May's "strength, courage, and sense of humor." Booklist reviewer Grace Fill felt that in addressing religious, political, and community issues, Fergus "writes with tremendous insight and sensitivity," and said he "is gifted in his ability to portray the perceptions and emotions of women."

In The Sporting Road: Travels Across America in an Airstream Trailer, with Fly Rod, Shotgun, and a Yellow Lab Named Sweetzer, Fergus's essays span six years of bird hunting and fishing across the United States. John Rowen wrote in Booklist that Fergus's remarks about the problems being faced by farms and rural communities "bring a touch of social consciousness to the easygoing, personable memoir." Fergus talks about the people he and Sweetzer have met along the way. He notes that the conservation movement was initiated by hunters such as President Theodore Roosevelt and that hunting poses a minimal threat to animal populations in comparison to that of chemical farming, overgrazing, and development. A Publishers Weekly reviewer wrote that "perhaps befitting a sportsman, Fergus has a spare writing style and uses only what he needs. The result is a light and enjoyable collection of tales."

One Thousand White Women: The Journals of May Dodd (Young Adult Review) (Brief Article). Grace Fill. 
Booklist v94.n13 (March 1, 1998): pp1092(1).

An American western with a most unusual twist, this is an imaginative fictional account of the participation of May Dodd and others in the controversial "Brides for Indians" program, a clandestine U.S. government-sponsored program intended to instruct "savages" in the ways of civilization and to assimilate the Indians into white culture through the offspring of these unions. May's personal journals, loaded with humor and intelligent reflection, describe the adventures of some very colorful white brides (including one black one), their marriages to Cheyenne warriors, and the natural abundance of life on the prairie before the final press of the white man's civilization. Fergus is gifted in his ability to portray the perceptions and emotions of women. He writes with tremendous insight and sensitivity about the individual community and the political and religious issues of the time, many of which are still relevant today. This book is artistically rendered with meticulous attention to small details that bring to life the daily concerns of a group of hardy souls at a pivotal time in U.S. history.
