

Oakway to perform

The Oakway Symphony Orchestra, conducted by Francesco D'Alati, will present its fourth concert of the season at 8 p.m. Sunday in Madonna College, Schoolcraft and Livonia.

The program will feature piano soloist James Jelasic playing the Klacchubarian Concerto and the Livonia Civic Ballet, directed by Jean Newell. The program includes "Suite to Sosa" and "Rodeo" by Copland.

Soloist Jelasic, who studied piano for 12 years, is attending Eastern Michigan University on a Diliman Music Scholarship as a piano performance major and voice minor.

He was selected as a finalist for two consecutive years in the Piano Technicians Guild Concerto Contest. This year he was awarded first place and will be guest artist with the Detroit Symphony Orchestra in the spring at Ford Auditorium.

David Evans will be guest choreographer for "Rodeo." Evans is known to Broadway audiences through his appearances in nine musicals. He first appeared in "My Fair Lady" and most recently in "Irene."

EVANS HAS assisted choreographers Joe Layton, Peter Gessen, Gower Champion and Agnes DeMille in creating ballets for American Ballet Theatre, The Royal Ballet, Hartmann Ballet and the Royal Winnipeg of Canada.

Evans has appeared with Carol Lawrence and Ann-Margret in Las Vegas and has done more than 50 television shows and specials. He also appeared in the award-winning movie "The Producers."

To bring his full circle, Evans will be appearing in the all-new recreation of "My Fair Lady" scheduled to open on Broadway in March of 1976.

Ms. Newell, the Livonia Civic Ballet Company director, was the choreographer for the production of "Godspell" currently at Schoolcraft College. She is choreographer for "How to Succeed in Business Without Really Trying," to be presented at Stevenson High School in Livonia in March. Tickets to the Oakway Symphony Orchestra concert are available from Madonna's Royal Music, Hammell Music, Madonna College and Southfield Parks and Recreation.

About B-I-C VENTURI Speaker Systems

In the short time that B-I-C VENTURI speakers have been available to the public, they have earned an unprecedented reputation for reproducing accurate, life-like sound. Based on an exclusive physics principle (U.S. pat. #3,892,288) and coupled with some of the most advanced engineering ever concentrated on a speaker system, B-I-C VENTURI speakers represent the ultimate in the state of the art. This, plus their remarkably high efficiency and power handling capability, make it possible to finally achieve the wide dynamic range of music not previously available to the enthusiasts. B-I-C VENTURI speaker systems are unique. Decide for yourself and hear a demonstration today!
