W. E. Lord, Editor

Published Friday of each Week and entered at the postoffice at Farmington, Oakland County, Michigan, as second class mail matter.

\$1.00 per year, in advance

Devoted to the upbuilding of Farmington and Oakland County.

MONEY NOT TIED UP.

Money invested in Liberty Loan Bonds is in no way in the world "tied up." So far as the Government is concerned the money paid in for these bonds, including that loaned our allies, is being and is to be spent in this country and therefore immediately paid back to the people for labor and products of the United States. So far from being "tied up" this money is in effect never withdrawn from circulation.

So far as the investor in the Liberty Loan Bonds is concerned his money is not "tied up," since there is always a ready market for United States government bonds. Everybody knows this. As shown by the subscription the demand for Liberty Loan Bonds exceeded the supply 50 per cent. This creates an immediate market for the Liberty Loan Bonds. Another issue will be offered to the people the announcement of which will be made by Secretary of the Treasury McAdoo in due course. The oversubscription of the first issue is an indication of which may be expected for the second issue.

The average mother whose boy is in one of the training camps is mighty anxious about his health, and is telling him to take care not to get sick. And on his part the average boy in camp is wondering how he escaped the clutches of disease as long as he did when at home. He is worrying about the health of the folks at home. The boys in the camps are getting their first object lesson in the systematic care of their health, and many are wondering why something of that kind was not done back home. If it is worth while to take such pains to keep them in condition for fighting efficiency, why are not the same pains worth while to keep them in condition as producers at home?

Another auto accident occurred Wednesday evening, when a boy, whose name we were unable to learn, fell from a load of chicken crates on which he was riding, striking on the cement pavement and knocking some teeth out. He was unconscious for some time after the accident, but no serious results are apprehended.

Don't mind that little "pun" of the editor's in last week's issue about the reporter getting her "wires crossed" (Phone 10). That was only a little "truse" to get more news, as in calling up to correct the error without doubt she secured several more items. Don't you forget the number of her phone One—Oh! and please talk plain.

Despite the rumor that the state preparedness board, of which Ex-Governor F. M. Warner, of this village, is a member was receiving a good sized salary and expense money, it is learned that the whole board of six members has agreed to serve gratis, and pay their own expenses, the money which they would be entitled to draw to be used for some patriotic purpose. Mr. Warner, with the other members, has put in most of his time since the organization of the board, and the result of their work shows that this year's planting exceeds the 1916 acreage by more than 1,000,000 acres.
