

# A FRIEND'S ADVICE

## Woman Saved From a Serious Surgical Operation.

Louisville, Ky.—"For four years I suffered from female troubles, headaches, and nervousness. I could not sleep at night, and it was not until I was 14 I tried to do any work. I would have to lie down before it was finished. The doctor said I would have to have an operation, so I lay down and I simply broke down. A friend advised me to try Lydia E. Pinkham's Vegetable Compound, and the result is I feel like an new woman. I am well and never feel ill again."

Everyone naturally dreads the surgeon's knife. Sometimes nothing else can be done. Lydia E. Pinkham's Vegetable Compound has saved the patient and made an operation unnecessary.

If you are any symptom about which you would like to know, write to the Lydia E. Pinkham Medicina Co., Lynn, Mass., for helpful advice given free.

**KIDNEY** is a deceptive disease—thousands have it. **TRouble** is the result. You want good results? You can make no mistake by using Dr. M. L. Klimmer's Kidney Pills. They are medicine. At druggists in fifty cent and dollar stores. Samples and bottles by parcel post. Also in 100 and 200 count boxes. Address Dr. Klimmer & Co., Birmingham, Mich. 100 or 200 druggists ten cents, also mention this paper.

**PARKER'S HAIR BALM** is a lotion preparation of herbs and minerals for restoring color and beauty in gray or faded hair.

**OLD FALSE TEETH WANTED** We pay \$100.00 for old false teeth. Please send them to us. We will pay \$100.00 for each pair. Mail to: Parker's False Teeth Speciality, 2001 Park & 11th Street, Los Angeles, Calif.

W. N. U. DETROIT, NO. 30-1917.

A Saving Clause.

"I heard young Mr. Loverote beat his wife the other day."

"Good gracious! and they've only been married a month, the wretched! What did he beat her for?"

"Because he played a better game of golf than she did."

**Teamster's Life Saved.**

**WRITES LETTER THAT IS WORTH READING VERY CAREFULLY.**

Peterson Bros. I was afflicted with very severe pain on my leg for years. I am a teamster. I tried all medicines and salves, but without success. I tried doctors, but they could cure me only for a short time. I was in pain all the time. I slept for many nights in pain. Doctors said I could not live for more than two years. Finally Peterson's Ointment was recommended to me and by its use I have been entirely relieved. I am now in full health. William Haase, West Park, Ohio, Mar. 22, 1915, care P. G. Reitz, Box 199.

Peterson says: "I am proud of the above letter and have hundreds of others to tell the wonderful cures of Eczema, Flux and Skin Disease."

Peterson's Ointment is 25 cents at all druggists, and there isn't a broad minded druggist in America that won't praise it. Adv.

In His Pocket.

To prevent private automobiles entering the road at Fort Benjamin Harrison leading past the quartermaster's office, and after consultation with a civilian employee, he has been placed at the junction of the quartermaster's road with the main road entering the post from the south. It is his job to permit only automobiles bearing Q. M. D. signs to pass him, says the Indianapolis News.

The other day an automobile, plainly a private machine and driven by a liveried chauffeur, turned down the fort road.

"Whoa!" where you go?" shouted the traffic man.

The chauffeur nodded. "Yes."

"Where you got it?" the traffic "cop" continued.

"I've got it here in my pocket," the chauffeur replied.

"All right, then go ahead," the traffic "cop" ordered, and the chauffeur winked as he shifted gears and started down the road.

Nearly Outgrown.

The man who expects to throw a surprise into the world must get up something with more thrills than a one-red revolution somewhere, for we've almost outgrown being surprised—Pittsburgh Dispatch.

No Gloves for Her.

"And are Mr. and Mrs. Carnegie working hand in glove together now?"

"Oh no; she handles him without gloves!"

## NEW LAW BENEFITS OWNERS OF SHEEP

Act Becoming Effective on August 1 Gives Better Protection From Dogs.

### LICENSE FEE IS INCREASED

Tags Now Will Cost Two Dollars a Year for Male Animals and Five Dollars for Females—All Must Pay.

BY W. F. RAVEN, Livestock Specialist, Michigan Agricultural College, East Lansing, Mich.—Michigan sheepmen have been many years in winning their fight for the protection of their flocks from dogs, but victory at last is on the way and should arrive by August 1. It will be up to this date that Michigan's new law regu-

of some value will find it worth while to have it around. After August 1, every male dog in a village and township throughout the state will be required to buy a \$2 tag, while every owner of a female will be compelled to pay \$5. These tags will be purchasable from the township or village clerks. The fees, it will be noticed, are higher than they were under the old law, which placed them at \$1 and \$3 for males and females respectively.

The good thing about the act is that it permits sheriffs, deputies, constables and police to kill without any red tape any dog found at large in violation of provisions of the law, and for performing the service the officers will be entitled to the same compensation they receive for executing a warrant in criminal cases.

Provision is made also for collecting damages from the village or township for losses which may have been suffered by dogs, including flocks, though in case of the old act, satisfactory proof will have to be presented to the proper authorities.

But to be of maximum benefit the law must be enforced, and if the public is wise, it won't leave the enforcement to the owners of sheep alone. Many there are who believe that most of the complaints from raisers of

## HAD NO HOPE OF RETURNING ALIVE

Mrs. Cason Left Home for Atlanta Propped Up on Pillows—Was Only a Shadow.

### ONLY WEIGHED 60 POUNDS

After Taking Tanlac Has Gained Thirty-five Pounds and Expects to Return to Home and Husband Well and Happy.

"About six weeks ago I left my home on our farm near Acworth, Ga., to come to my sister's home here in Atlanta, and I left with only a shadow of hope of ever returning again."

"I left Acworth in a comfortable automobile, propped up on pillows, coming through the country. I had almost as much medicine as baggage—a big box full of all kinds that had been prescribed for me. I reached here very weak and with scarcely enough strength to walk to the door. This trouble from which I had suffered so long and which I was told was plague, had reduced me to almost a shadow, as I only weighed thirty pounds."

"My brother-in-law, Mr. Battle, said, 'Well, you have tried everything else with no relief, now I want you to lay aside your "drug shop" and take Tanlac.' Well, he got it for me and I started on my first bottle that day.

"When I had taken about half the first bottle I began to feel stronger and encouraged. I continued to take it and it is nothing short of marvelous how I improved day by day. My appetite is good again, my food seemed to nourish me and agree with me. My skin and complexion began clearing and I improved in every way possible until I am now a well woman, and when I say well I mean absolutely what I say. I want to tell the whole world that I thank God for Tanlac."

"I weigh plenty—fifty pounds now and feel as well as I ever felt in my life. I am going back to my husband and home on the farm again, and I am looking forward to returning to Acworth tomorrow, and won't let the joyful meeting returning absolutely well and happy—and won't I tell everybody about what Tanlac has done for me."

The above remarkable statement was made recently by Mrs. O. C. Cason of Acworth, Ga., while at the home of her sister, Mrs. J. B. Battle, English Ave., Atlanta, Ga.

There is a Tanlac dealer in your town—Adv.

FATTENING WESTERN LAMBS IN INGHAM COUNTY.

Michigan Will See More of These With the Enforcement of the New Law.

lating the ownership and custody of dogs will become effective and it will be a happy occasion for the shepherds of the state. But not for their elation flock owners should not forget that if they wish to reap the full benefit of the new legislation they will have to take it upon themselves to see that the law is enforced. Experience has taught that the measure certainly will never enforce itself.

There are perhaps but few sheepmen in the state who have been bitten by the dog on the other hand, few are aware of its provisions. Inquiries about it have been frequent. To these seekers after information, this answer may be made: "The act is still a long way from being perfect, but if sheepmen will make the most of it, they will be much better protected than they have been heretofore."

Individuals in quest of all details of course procure a copy of the act from the secretary of state, but its main provisions are simple and relatively few in number.

The act is aimed principally at discouraging the keeping of useless dogs by making the license fee so high that only a man who possesses an animal

sheep are nothing more than wild ravenous animals, and the matter is that there probably isn't any other single factor which has stood so much in the way of building up the sheep industry as the lack heretofore of protection from dogs. Dr. H. H. Halladay, of the state livestock sanitary commission, authority for the statement that direct losses caused in flocks by attacks from dogs range from \$150,000 to \$200,000 a year; a good deal of this is due to the fact that

sheep are nothing more than wild ravenous animals, and the matter is that there probably isn't any other single factor which has stood so much in the way of building up the sheep industry as the lack heretofore of protection from dogs.
