THRIFTY AND BEAUTIFUL—WHERE CAN YOU MATCH ONE OF THESE TEN AUTUMN CHALMERS

They are all from thirty to ninety days ahead of the time, for they are the advanced autumn and winter styles.

So, in buying a car now you will find that the newest devices, the latest improvements and the most recent developments in motor car building are right here in a Chalmers.

And there are ten of these Chalmers. You will find among them a full range of types from an eighty mile an hour (guaranteed) speedster to a sedate limousine, or a sensible, thrifty touring car to a decidedly smart town car, etc., etc.

They are without a question the best looking cars that Chalmers ever built. But more important they are the most thrifty cars that Chalmers ever built.

Picture all the car you want, all the room you can use, all the speed you ever dare use, all the power you can ever wish for, all the "hang to the road" quality you could desire.

And then bear in mind that these Chalmers are not large cars but light cars, that they have less than a thirty horse power engine (which means much every time you fill the gas tank) that a new tire does not cost a small fortune and that one tire lasts many and many a day.

Good points to stick in your mind and pleasing to ponder over after you have once seen how striking in beauty the ten new Chalmers really are.
