It's hard to say exactly where the tradition of cutting the wedding cake came from. It is known that food has always played an important role in the ceremony of Marriage and Engagement.

In old Spain, a girl discouraged an offer of marriage by giving the young man a pumpkin. In the old country of Thuringia, a girl would refuse proposals by serving a boy friend sausage. And in Poland, serving goose was a sure sign that the girl would say "no".

Today we have the Wedding Cake and "Cutting of the Cake" will be one of your most precious memories. To make this part of your Wedding run smoothly, cut the cake immediately after the Ceremony. Too many times, young couples get in a motorcade of toasting horns while the guests are waiting for the traditional cake-cutting. Or they get so wrapped up in taking pictures that the guests are left impatiently waiting to greet the Bride and Groom.

At Orin's, our Bridal Department is trained and equipped to offer such helpful suggestions and answer any questions you might have regarding Your Wedding, and above all, a sympathetic understanding of the problems which beset the Bride-to-Be. Do come in soon.

## Frustration Can Be Price Of Aid

Although a hearing aid can be valuable for a child with impaired hearing, frustration can often be the price of wearing one.

So reports, Dr. Raymond Carhart of Northwestern University, he emphasizes that people working with a child who wears an aid should remember that the child does not hear as they do. Tests with normal people show that a typical aid makes background noises much louder.
