MORE FOOD IS NEEDED, SAYS SECRETARY HOUSTON
In pute of the large production in many directions during 1917,
the situation is not, satisfactory,
and in the vipid is inadequate. Owing to shart crops in preceding
years, the reserves of, a number of important dominodities have been
greatly reduced. Whether the way continues or not the demands of
this country, because of the increasing population and of the needs of
Europe, will be great! Ther will continue to be great for a considerable period, even after peace returns! There will be an especially
strong demand made on this country for meats and live stock.—Secretary Houston.
