zens wishes to ask the question:
"Why is our American flag not
flying from the High School
building today, the same as on
other conspicuous spots of the
town?""Is it because the school dis-
trict is too poor or is not willing
to buy one. No. Then it looks
as if it were up to the school
board to shoulder the blame,
which is a blamed shame, to say
the least."Drive where you may in
country or town, and you will
find that Farmington has about
thirty school buildings from
which 'Old Glory' is not being
allowed to fly her colors. Some
of the children are selling lead
pencils with which to help pur-
chase a flag."We are told that it is a school
law that there be placed an
American flag on, and in each
room of the school. Have we
them in ours. No! Neither in-
side or outside, which certainly
does not add to our credit."It does seem as if we owe
it to the children of our school
who are working so earnestly
selling Thrift Stamps, trying to
show their loyalty to their flag,
to place a flag on the buildings
or ground."If it is because we can't
afford it, then we most certainly
cannot afford a new building and
school grounds. A good share
of the boys who have gone
from this township have at some
time been members of the
school. Then let us in honor of
them, have a flag and have it
at once.
