## Stop the Waste!

A DRIPPING FAUCET in the home costs money if allowed to drip any length of time. Stop it. Why not have us "get on the job" and examine all your water fixtures? At small cost you can have everything put right or replaced. We're competent plumbers. We give estimates on plumbing, tin-smithing and steam fitting jobs. Nothing too small or too large for us to thoroughly and to your satisfaction.

We also do all kinds of Sheet Metal Work.

## WAY & ADAMS

### The Spirit of Coolness in the home circle

Invite the Spirit of Coolness to your feast! Cooling breezes are found wherever the whirling blades of a fan stir the air and promote comfort and good appetite.

For a few cents a day, the CE Fan will improve summer living conditions in your home. In the bedroom, it aids you to secure a comfortable night's rest. In the dining room, it adds to the pleasure derived from the food and banquets flies. In the living room, it helps towards a pleasant evening, while, in the kitchen, it dissipates the odors of cooking and improves the temper and efficiency of the domestic worker. The Spirit of Coolness is ever attendant upon the fan.

Have you this "fair" in your home?

## Are Needed to Win the War

THERE are two things to which this nation has pledged itself in this great war—one is to stop waste, and the other is to exert every ounce of energy and ability toward PRODUCTION—and even more than anything else, PRO-

DUCTION OF FOOD STUFFS. THE farm, therefore, that is doing its full patriotic duty, is the farm which is conserving the most feed—and, raising the most hogs and beef and milk and corn and wheat per acre.

BUT no farm can produce its maximum unless properly equipped.

THE farmer who is not giving his hogs proper protection is not getting as many litters nor as large litters as he could if his hogs were properly housed.

FEED, which stock in the open require for animal heat, would go, in to beef or milk if the stock were kept in a properly built, well ventilated and insulated barn.

AND after all, isn't the time spent in repairing machinery after it has lain exposed to the weather all year waste?

THERE never was a better time to build your barn or your hog house or your implement shed or your granary than right now. Lumber is NOT high. A hog or a bushel of wheat buys more lumber now than it has ever bought before—more, perhaps, than it will buy later when values again readjust themselves.

WE have a large, and a very desirable stock of all kinds and grades of lumber and material and can give you excellent service.

Everything needed will be found at our Yards
