## Liberty Bond Conversion

4 1/4 per cent for 4 per cent

All holders of 4 per cent Liberty Bonds have the privilege of converting them into bonds bearing the 4 1/4 per cent of the Third Loan.

The Government desires, to avoid congestion, that this action be taken promptly as the Conversion Privilege expires November 9, 1918.

For the convenience of holders of these bonds in this section, this Bank has made arrangements whereby you can secure the 4 1/4's without red tape or expense of any kind. Simply bring in your 4's and we will hand you the 4 1/4's in exchange.

We appreciate the anxiety of the holders of Coupon Liberty Bonds over the safety of their securities and realize the increasing hazard each succeeding Loan will create.

In accordance with our Policy of extending every service possible to the public and to further the sale of future issues we will be glad to relieve you of your worry in this connection.

Without any charge whatever, we will accept responsibility for the safe keeping of your Liberty Bonds, returning bonds at any time desired.

Whether you are a customer of ours or not we offer you this service.

Under our plan there is no need to rent a Safety Deposit Box to secure from Fire and Theft your Liberty Bonds.

## Fall Rains

Do your roof gutters and leaders need repairing? Look them over carefully now, and if they are not in good condition call on us. We will give you a low figure and do the job right. It doesn't pay to let your tinning get in such bad shape that your house will be damaged. Cheaper in the end to have us doctor the tin work up or replace it entirely.

We also do all kinds of Sheet Metal Work.

## WAY & ADAMS

## STOVE BUYER WARNINGS

Garland Stoves and Ranges have been the above trademark since 1880. It is only through reliable dealers or by Mail Order or Catalog Houses.

Insist on seeing Garland's. In over 4,000,000 homes. Made for 40 years to give permanent satisfaction.

**Caution** FACTS, plain facts, are often hard to tell without hurting somebody's feelings.

But, as agents for Garland Stoves and Ranges, we have no desire to do that—no quarrel with any Mail Order Stove Concern or Catalog House.

It is stove buyers for whom we have facts worth considering—practical, profitable facts whenever you are thinking of buying any kind of a stove or range.

## Buy Where You Can See What You Get—At HOME

We do not say this selfishly. We only ask that you investigate Garland's before you buy. That's all. We are glad to rest the matter on your judgment then—when you see our full line of latest style Garlands for every purpose to suit your needs.

### Quality

For over 40 years Garland stoves and ranges have had the greatest sale of any stoves and ranges in the world—in over 4,000,000 homes. Garland's Quality cook you no more than stoves and ranges of inferior grade. So why not secure The World's Best?

### Service

Permanent economy in buying any stove or range should be considered not only from its first cost, but also from the point of view of durability, materials and workmanship. Garland's are the world's best for baking, cooking or heating and do each with the least waste of fuel.

Ask for the **Garland Book**  
"The Only Safe Way to Buy Stoves and Ranges"

## A Kitchen Range for Hard or Soft Coal

## More Farm Buildings

### Are Needed to Win the War

THERE are two things to which this nation has pledged itself in this great war—one is to stop waste, and the other is to exert every ounce of energy and ability toward PRODUCTION—and even more than anything else, PRO

### DUCTION OF FOOD STUFFS.

THE farm, therefore, that is doing its full patriotic duty, is the farm which is conserving the most feed—and raising the most hogs and beef and milk and corn and wheat per acre.

BUT no farm can produce its maximum unless properly equipped.

THE farmer who is not giving his hogs proper protection is not getting as many litters not as large litters as he could if his hogs were properly housed.

FEED, which stock in the open require for animal heat, would go, into beef or milk if the stock were kept in a properly built, well ventilated and insulated barn.

AND after all, isn't the time spent in repairing machinery after it has lain exposed to the weather all year waste?

THERE never was a better time to build your barn or your hog house or your implement shed or your granary than right now. Lumber is NOT high. A hog or a bushel of wheat buys more lumber now than it has ever bought before,—more, perhaps, than it will buy later when values again readjust themselves.

WE have a large and a very desirable stock of all kinds and grades of lumber and material and can give you excellent service.

Everything needed will be found at our Yards
