#### AFTER YOUR MONEY

Parents of the boys at the front are warned of "ambitious" lawyers in Washington, in case of death in France.

We understand notices are being sent out with the information that they will require legal help in collecting the son's back pay, along with liberty bond rebates and other claims to the government. The lawyers agree to look after this business on a fee basis, and ask for power of attorney. Parents should be on their guard, as such legal help is absolutely unnecessary. In such cases legal matters may sometimes arise, and it is best to see a reputable local lawyer. Rep. Quinn, of Mississippi, in referring to such cases, spoke words that every war-mother in this section should take heart and remember. "No lawyer should be allowed to get one cent of the soldier's back pay. Should receive no part of the government insurance as a fee for collecting it. No soldier, nor the parents of a soldier or sailor, needs the aid of a lawyer to get his money. The war risk bureau will pay every dime due the beneficiary under the policy. Also, if necessary, every congressman will aid his constituents in collecting the money."

#### WOMEN'S WAR WORK

The Munising News comments editorially on women's war work as follows:

"The world over woman's work in war has awakened man to a new sense of the injustice and lack of proper respect in any attitude which prevents the woman sharing equally the privileges of citizenship as they share its responsibilities and burdens. That there will be any sentiment or influence worthy of mention opposed to the amendment found in the state where the proposition comes to a vote next fall is unthinkable. Let us make it unanimous, and thus make Michigan a leader in the progressive column of states that have honored themselves by honoring their women."

A working man came into the office Wednesday, and told us he had just deposited with one of the banks a sum of money for Red Cross, and that every month, if his health permitted, he was going to give one dollar of his earnings for the benefit of the organization that was doing so much for the care of the boys in France. This gentleman thought there were many in the same circumstances as himself who could do the same thing if the proposition were only put up to them, and they were made to realize that those of us back home here are living in comparative luxury, while our own boys that we have seen grow up right here in Farmington—are fighting for us and giving their life blood.

## WAY & ADAMS

## The Fordson Tractor

The Fordson tractor, manufactured by Henry Ford & Son at Dearborn, Michigan, is here.

Hundreds of farm owners in this community will be interested in this announcement—in knowing that Fordson tractors are ready for distribution.

The urgent need for greater production and the vital necessity of employing man-saving machinery in farm work is apparent to everyone. Remembering these immense tasks ahead, the coming of the Fordson is of importance to every Farm owner at this time.

## The Oliver No. 7—the Plow for the Fordson

Oliver No. 7 has been built for the Fordson.

Henry Ford & Son recommend it as the plow that will work to the best advantage with their machine.

Oliver No. 7 is really a one-man machine. A rip lever right at the operator's hand raises or lowers the bottom. An even depth adjustment lever is right at hand, too.

You will appreciate the high clearance of plows and beams because they save time and annoyance—just as the ribs between bottoms prevent clogging with trash and make every second of operating time count in plowed ground.

The Oliver No. 7 embodies principles of plow construction founded on thirty years of making plows, of intensive study of every existing soil condition—constant attention to the plow requirements of the tractor since the tractor industry began.

Come in and see this complete outfit—the Fordson and the Oliver No. 7 Plow.
