"Gives Life for His Country"

Private Edward A. Burger,
well known here, died on Sun-
day, October 13, 1918, of pneu-
monia, following an attack of

PRIVATE EDWARD A. BURGER.
Spanish influenza, while in train-
ing at Camp Custer.

Mr. Burger was 27 years of
age, and was united in marriage
to Adeline Simmons of this town-
ship, a little over a year ago.
He had been sick only a week,
his wife being with him and car-
ing for him to the last.

The funeral was held last
Thursday afternoon from their
little home east of Plymouth,
which had been closed since he
was called into the service of
his country.

He leaves his young wife, his
father and four sisters, besides a
host of relatives and friends to
mourn his death. Mr. Burger
was of a kind and genial nature,
and will be greatly missed by all
who knew him.

"A precious one from us is gone.
A voice we loved is still,
A place is vacant in our hearts,
Which never can be filled."

To the People of this Community:

We have been notified by our New York correspondent that they have established a special department in France which will endeavor to secure, in an unofficial manner, reports on the condition of wounded officers and soldiers under treatment in the various hospitals located in Paris and other towns in France.

It should be understood, however, that although the authorities in charge of the American Red Cross in France are willing to allow free access to the various wards, to special visiting agents, it will not be possible to interfere in any way whatsoever with the care and attention given to the patients by the American Red Cross, and no private nurses will at any time be allowed to attend to the patients. As you know, the American Red Cross is part of the military organization, and all patients receive the same careful treatment.

We take pleasure in offering this service to the people of this community entirely free of charge. Our correspondent wishes it understood that while they will do their utmost to secure reliable information, they cannot assume any responsibility whatsoever for delay or inability to obtain the desired report.

WAY & ADAMS

The Fordson Tractor

The Fordson tractor, manufactured by Henry Ford
& Son at Dearborn, Michigan, is here.

Hundreds of farm owners in this community will
be interested in this announcement—in knowing that
Fordson tractors are ready for distribution.

The urgent need for greater production and the vital ne-
cessity of employing man-eating machinery in farm work is apparent
to everyone. Remembering these immense tasks ahead, the
coming of the Fordson is of importance to every farm owner
at this time.

The Oliver No. 7—the Plow
for the Fordson

Oliver No. 7 has been built for the Fordson.
Henry Ford & Son recommend it as the plow that will work
to the best advantage with their machine.

Oliver No. 7 is strictly a one-man machine. A trip lever
right at the operator's hand raises or lowers the bottoms. An
even depth adjustment lever is right at hand, too.

You will appreciate the high clearance of plow and beams
because they save time and annoyance—just as the rake be-
tween bottoms prevents clogging with trash and makes every
second of operating time count in plowed ground.

The Oliver No. 7 embodies principles of plow construction
founded on sixty years of making plows, of intensive study of
every existing soil condition—constant attention to the plow
requirements of the tractor since the tractor industry began.

Come in and see this complete outfit—the Fordson and the
Oliver No. 7 Plow.
