THE BEST SCHOOL RECORD

Farmington Township Rural Schools Win Honors—District No. 4, Fractional, Granted Honorary Diploma

Six hundred ninety-eight Oakland county children attended the rural schools of the county six months without being absent or tardy during the year ending in June 1918. Over 300 of these were in attendance for the entire year without missing a day.

All have been granted certificates of award by School Commissioner Craft, who states that this is the best record ever made in the county, and considering the bad weather conditions during the winter it is a remarkably good record.

Farmington township made the best record in the county, and District No. 4, fractional of Farmington, wins the highest honors of any school for perfect attendance and has been granted an honorary diploma. Anna Reisman, teacher of the school.

Those from this vicinity who have received diplomas of honor are:

Many thousands of Liberty Bond buyers in the 7th district turned "coupon clippers" on November 15—interest day for the 2nd 4% and converted 4% Liberty Bonds. The War has made "bond capitalists" of great numbers of workers and people who formerly regarded "investing" as a thing beyond their reach. By subscribing to the Liberty Loans they have taken a permanent place in the finances of the government and, if they are wise, they will derive increasing benefit thereby.

The great importance of saving, and not wasting, the interest money received on coupons is clearly explained by F. R. Fenton, Federal Reserve Director for Michigan of sales of government securities. He said:

"All 'bond values' and 'yield tables' are figured on the supposition that the coupon clipper shall add the amount of the interest to the principal each coupon day. Any man who fails to do this loses the magic of 'compound interest', and fails to get the most out of his investment. Therefore, every Liberty Bond coupon ought to be immediately invested, and not 'blown in' for cigars or other foolishness."

"The Government makes it easy to invest Liberty Bond coupons. U. S. Thrift Stamps at 25 cents apiece may be bought at any postoffice or bank. Sixteen of these stamps, accompanied by an 'exchange fee' of 22 cents will amount to \$4.22; for which the government will give a War Savings Stamp, redeemable for \$5.00 in 1923."

"To make the matter clear: If you have a \$100 Liberty Bond of the Converted Second Loan, you will have a coupon worth \$2.13. Add 12 cents, take the \$2.25 to the postoffice and buy nine Thrift stamps. Paste these on your Thrift card with the seven you already have, adding 22 cents for the exchange, and you will receive a \$5.00 War Savings Stamp. Thus, you make 78 cents clear by the transaction."

"In other words: Clip your coupons and lend the interest money to the United States Government; by investing in Thrift Stamps."

FROM OUR EXCHANGES

News Items Taken From Other Papers in and About the County.

Autos will soon be out of date—wait, and may be you can secure a discarded government automobile at half price.—Oxford Leader.

The Kaiser announced early in the game that he would stand no nonsense from the United States. Perhaps, by this time, Bill knows that it was not nonsense, but real business on our part.—Detroit Courier.

Talk about the nine lives of a cat! The number of times and the variety of ways the "Kaiser" was "killed" last week Thursday and this week Monday wouldn't be accurately covered by 999,999, and then some.—Northville Record.

Now that women can vote they ought to be ready to live up to their implied obligations and serve in public office. How many want to be candidates for the council next spring? Don't all speak at once.—Holly Adviser.

Most every piece of woods has a lot of fuel going to waste on the ground. The Milford Boy Scouts put in part of Saturday afternoon gathering up a supply that would otherwise have been wasted, and bringing it in to heat their rooms this winter.—Milford Times.

A general survey is to be made of the village during the coming week under the combined auspices of all the churches in order that the churches may have an idea of the strength of their forces to deal with the vital problems of reconstruction which are awaiting the church.—Redford Record.

Ruth Martin, 14-year-old daughter of Cary Martin, D. U. R. conductor, was reproved by her father Sunday evening. She at once went to her room and shot herself with a 22 revolver, which had been loaded nine years. The bullet lodged near the heart and the girl is in a precarious condition.—Rochester Era.

An unusual sight was witnessed by people traveling the Perry street road about a mile and a half out this morning. Almost directly in front of the farm of Mrs. Arthur Davis there were standing four deer, three does and a stag about a year old. The animals came out of the woods from the west and slowly wandered down the road, finally stopping in front of the Davis place. Mrs. Davis, fearing that someone would not respect the law which prohibits killing them in this county, called up the police and sheriff's offices. She requested that an officer be sent out to look after them. The four animals were driven back into the woods.—Press Gazette.

County Farm Bureau

Great plans for the education of the Oakland county farmer along agricultural lines are being made by County Agent C. B. Cook. The farmer's institute plan will be made to provide a fuller service to the farmer than ever before. A modification of the institute to meet the needs of many neighborhoods is the farm school. This is the continuation of the institute principle for either three days or a week as the community desires.

It must not be forgotten that farming is a business of the head first and the hand second, and he who would succeed best must know the truth and pass on it with the open mind if he succeeds to the best advantage in farming.

TIME EXTENDED UNTIL SATURDAY

Those Who Have Not Volunteered For the United War Fund May Yet Do So

Our township War Board, at a meeting Wednesday evening, decided to keep the volunteer plan for the United War Work fund open until Saturday evening, both banks taking subscriptions.

Over 400 have already volunteered their quota and signed up, and the chances are that very few will have to be seen the first of the week when all back on their quotas will be visible. The names of all volunteering will be published in the Enterprise, followed, it was proposed, by a list of who "back up" and refuse to pay their quota—one member of the board suggesting that on the return of all the boys who enlisted, they be appointed a committee to visit any who refused to back them up at this time.

Secretary of War Baker says that "the process of demobilization, which is now beginning, will necessarily take many months. During this time it is of vital importance that our soldiers, particularly in Europe, should have the support of those agencies which are now joined in the united war work campaign. The need of their services is even greater, now that hostilities have ceased, than before. I hope that every American will be proud to support, during the coming year our triumph army."

On Wednesday the local War Board received a check from Harry C. Bulkley for \$43.25, and one from the Detroit Edison Co. for \$54.00.

In his appeal for contributions, Carroll F. Sweet, Michigan chairman of the war work campaign, states as follows: "With the close of the united war work campaign the united war work must be kept up. Every country must have completed its quota. In order to maintain the reputation of the state every man, woman and child who has not given all possible towards the relief of the soldiers and sailors must consider themselves shirking their duty. There are but a few and not only do they realize it themselves, but everyone in the community is aware of their lack of patriotism. Time will tell and this type of person will receive a just reward from the hands of neighbors. President Wilson has pleaded with the people to lend this drive their full support and he took this step only after investigation proved that every penny will be needed for the morale of our boys."

Many other strong arguments could be quoted from all classes of those who know the facts, but we are sure they will be unnecessary as far as Farmington is concerned, as it is our opinion that we are "going over" before Saturday night, and that everyone is going to help.
