

THE BEST OF FASHION

Quiet. Understated. Elegant.

This is the Fall to look fabulously wealthy . . . even if you aren't!

Gone are the contrived looks of past seasons. Today's clothes mark a strong return to the classics. Styling is subtle. The line simple. Fabrics are luxurious.

It's the year of the well-bred when it comes to both dress and casual clothes for 1976. You'll find more of everything that stands for polished good looks. More softness and shine to fabrics. More color. More body to hair styles. More dramatic tones in make up.

Separates have made a smashing return. Sweaters, skirts, jackets and pants are the most highly prized items in the Fall lineup.

Step out in elegantly tailored clothes.
