

Election vigils end in joy, sorrow

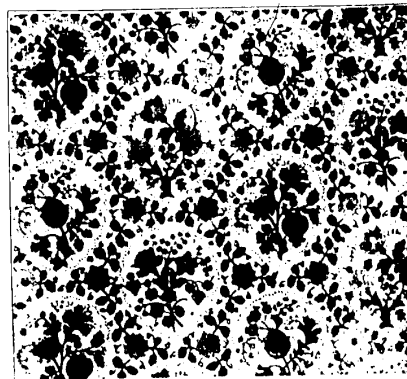

As election night progressed, U.S. Rep. William Brodhead (D-Detroit) mingled with the crowd of well-wishers at his campaign headquarters. (Staff photo by Harry Mauthe)

William Brodhead received the joyful news of his re-election early in the long, election evening.

Republican challenger for Brodhead's post, Jim Burdick consoles a disheartened Rick Schwartz of Farmington Hills, as news of the defeat sets in at his headquarters. (Staff photo by Harry Mauthe)

ELIZA wallpaper by Thomas Strahan

During the reign of William and Mary and Queen Anne, needlework became a passion with the court and many a lady-in-waiting spent her time making bed-hangings and spreads, draperies and the like for the royal palaces and elegant town and country houses. From this era came the motifs which were adapted for this distinctive design with its lack of embroidery or needlepoint.

Disability pay requires wait

Social security disability payments generally cannot start immediately after people apply for them because of a law requiring a five-month waiting period.

That's the word from Charles Anderson, manager of the Social Security office at 144 Middle Bldg. in ma.

Social security pays monthly disability benefits to eligible workers and their families if the worker is severely disabled and expected to be able to do any work for a year or more. Payment generally begins early in the month after five full months of disability.

During the waiting period, Anderson explained, examiners get medical records from doctors, hospitals and other institutions that treated the disability. The disabled pay for getting those records if there is any charge.

"To be eligible for disability benefits," Anderson said, "most workers need at least five years of work under social security in the 10 years before they became disabled. For workers disabled before age 31, the requirement scales down to as little as one and a half years, depending on age."

Anderson added, "People disabled in childhood can get social security disability payments without waiting when a parent starts getting social security retirement or disability benefits—or dies after working long enough under social security."

Severely disabled people who haven't worked long or recently enough under social security to get disability benefits may be eligible for supplemental security income (SSI) payments. The SSI program, administered by social security, makes monthly payments to people with little or no income and limited resources who are disabled or blind or 65 or over.

"There is no waiting period under the SSI program," Anderson explained. "Payments start when eligibility is determined. In some cases, SSI disability payments may be made to people while they're waiting for an eligibility decision for social security payments."

More information about social security disability and SSI programs may be obtained by calling or writing any social security office.
