Betsy Ross was born in Philadelphia, on Jan. 1, 1752. She is married John Ross, whose uncle George Ross was one of the signers of the Declaration of Independence. The Rosses had a small upholstery shop on Arch Street in Philadelphia.

When General Washington needed a flag for the brand new republic, General George Ross, one of Washington's aides, suggested that his nephew's wife Betsy, could probably do the job. They brought a rough sketch of the stars and stripes to Betsy Ross. She told them that she had never before made a flag but that she was certain she could do it. She had some suggestions for changes in the design and another rough sketch was prepared, according to her suggestions. She then made a large and beautiful flag — our first Old Glory.

Great chapters of American history have been written since the time of Betsy Ross. America has prospered and somewhere along the line, Orin's was established. Orin's has grown, top and stands today as Garden City's leading jeweler. But there is something really special about Orin's because we have made it our business to learn just about all there is to know about Wedding Rings and Proper Wedding Procedure.

Look for safety features on the new washer or dryer you're planning to buy, advises Helen E. Bell, Extension home management specialist of The Pennsylvania State University.

Before you make your decision, check for a safety switch on washer or dryer that will stop the cycle or action when the door or lid is opened. It's important for the appliance to have an automatic shutoff for out-of-balance loads, and to have a safety light to warn you when the machine is running.

Doors and handles that are flush with the appliance will keep your clothing from catching as you walk by it.

FOR YOUR safety, the manufacturer should provide clear and understandable operating instructions. With directions listed on the inside of the lid, other persons can use the equipment safely even if you're not there.

Dr. Bartlett Haas conducted the 4 p.m. ceremony at the altar banked with white gladiolus and white chrysanthemums.

White silk organza with embroidered silk design fashioned the bride's A-line gown with long sheer sleeves and detachable chapel train. Tiny seed pearls accented the design on both dress and train as well as her veil. Her petal headpiece was trimmed with seed pearls and crystals, and her bouquet was a cascade of orchids, stephanotis and ivy with yellow sweetheart roses for accent.

for the approval seal of the Underwriters' Laboratories, Inc., on electric equipment. The washer or dryer must meet special safety requirements to earn this seal. A gas dryer should be approved by the American Gas Association.

Correct installation is essential to safe appliance operation. For electrical safety, all major appliances should be grounded, either by a separate grounding wire or a three-prong plug and outlet, Miss Bell adds.

Refer to the instruction book for proper use and care and for cleaning and maintenance procedures.
