CHAPTER V-Continued.

I table not but connect blin with our possence there. Loroux was due to arrive at any moment. I realized that great issues were at stake, that the man would never cease in his not to the possence of the pos

here income to the hotel elecks. I discovered that St. Boniface was a little know, the only occupant's of those parts being trappers and Indians. "You could hire dogs and a stelph at St. Boniface for wherever your final destination is," he safts "because the dog mail has been suspended owing to the new searcement mail beats and destination is, no sound dog mail has been suspended owing to the new government until boats, and their sleights are idle. I think Capjain Dubois would take you on his boat as far as that point, and I believe he makes his next trip in a couple of.

gave me the captain's address

He gave me the capitalité, address, and I resolved to call on time early the following day and make arrangements. I took Jucquellue for a strell on the terrice, and while we wisked I need to be a strell on the terrice, and while we wisked I need to be a strell on the terrice and while motion and the strength of the strell on the strell of the too the strell of the strell

sale remembered. I orealist invasions waskening her memory, lest, with that of her home, came that other of the dead man.

Our rooms were on the side of the Chaicau facing the town, and as we passed beneath the arch I saw two most smalling no great indicates a second of the constanting of the states. On the constanting of the states of the priest. On the constanting of the states of the priest. On the constanting the state is the states of the priest. And I could have sworn that he was Pere Antoine; the other resembled the susplicious stranger. As we drew near they moved behind a pullar. Thus, the change the mean.

My suspicious received confirmation of sw minutes later, for we had hardly renched our rooms, and I was, in fact, standing at the door of Jaqueline, bidding her good night when a heliboy came along the passage and announced that the gentleman whom I was expecting was coming up the states. I said good night tag Jacqueline and went into my room and walted. I had thought it would be the stranger but it was the priest.

I invited him to enter and he came and stood with his fur cap on his head, looking direfully at me.

"Well, monsieur, what is, the purpose of this visit?" I asked.

"To tell you," he thundered, "that you must give up the unhappy woman hos as accompanied, you here."

"That its precisely what I lateed to do." I makered.

"To me," he said.

"Her husband—"
I felt my brain whiffling. I knew now that I had always cherished a hope, despite the chig—what a fool I had been!

"I married them," continued Pere

hope, despite the ring—main a too had been!
"I married them," continued Pere Antoine.
"Where is he?" I demanded.
He appeared disconcerted. I gathered from his stare that he had sup-

ered from his stare that he had sup-posed Linew.

"This is a Catholic counfry," he went on more quietly. "There is no divorce; there can be none. Marriage as a secrement. Sinning as he ise."

I placed my hand on his shoulder. I will not hear any more," I said. "Go!". I pointed toward the door. "I am going to take her away with me," he said, and crossing the threeh-old into the corridor placed one hand on the door of Jacquelhe's room.

I got there first. I thrust him vio-

I got there first. I thrust him vio-lently aside—it was like pushing a monument—turned the key, which happliy was still outside, and put it in my pocket.

happin was suit outness and year any pocket.

"I am ready to deal with her husband," I said, "I am not reddy to deal with you. Leave at quee or I will have you arrested, priest or no priest. How do I know she has a thusband? How do I know you are not in league with her persecutors? How do I know you are a priest at all?"

He seemed amared at the violence "we meaner."

He seemed amared at the violence of my manner.

This is the first time my priesthood shas been denied, be said quietly.

"Well, I have offered you your charact (cannot in 80 Wolance. L. you a Canset you. I can the -most discreet of men. Modelsine?". I cannot in 80 Wolance. L. you a Canset you will firing your own punishment of the property of the p

unhappy woman whom you have |

I shouted, pointing down the

passage. He turned and went, his soutane sweeping against the door of Jacque-line's room as he went by. I unlocked, the door of Jacqueline's room. I saw her standing at the foot of the bed. Her face was white. As I entered she looked up piteously at me.

-was-that?" she asked in a

"Who—was—that?" she asked in a frightened whisper.
"An impudent fellow—that is all. Jacqueline."
"I thought I knew his voice," she answered slowly, "It made me-almost—remember. And I do not was to remember. Paul."
She put her arms about my neck and cried. I tried to comfart her, but it was a long time before I succeeded. I to I locked her door on the outside and that might I slept with the key beneath my pillow.

CHAPTER VI.

"Dieul So you, too, are going to the Chateau Duchaine!" he exclaimed. "Is there not room for two more on the boat of Captain Duhamie!" I long to the Chateau Duchaine!" I long to the Chateau Duchaine!" I inquired angelly.

Ile flared up too. "Djable!" he burst oot, "Do you suppose all Quebec does not know what Is In the wild! But will entitle the property of the control of the work of the world of the worl in such an enterprise?

In such an enterprise?

"Let us say, then, that he arranges with a Captain Duhamel to convey his party to St. Boniface, to which point he will go secretly by another route.

"Who—Was—That!"

and that he will Join them there and in short, monsteur, take yourself and your felend to the devil, for I won't give you passage. Go hack to himfor I know he sent you to me—and tell him he cannot hire Alfred Dubois for all the passage of the control of the c

ATTENTION TO EARTH ROADS

Authority on Highway Construction ikes Concrete, but Favors More Care of Lanes.

"More attention has got to be paid to the earth roads if the coming bond elections are to go over." This is the opinion of E. L. Stevens, inventor and road expert. Mr. Stevens is, perhaps, road expert. air, stevens is permaps, one of the most unique characters in the road-building world. A graduate civil engineer, he felt the tremendous need for the perfection and develop-ment of the road system of America. ment of the road system of America. He stepped out from the promising channels of the regular engineering profession and went down almost below the level of ordinary men to study road building, says Rocky Mountain News. He has made road building and maintenance his life work and is now, probably, as well qualified as any man

Sand-Clay Road Well Cared For.

to tell the methods for the proper upbuilding of the nation's highway sys-

better the methods highway special control of the better the methods highway commissioner for the Estes Park highway. This piece of road work in listelf is a restimony to his ideals. He is also the inventor of the Sterens improved road drag, one of the Sterens improved road drag, one of the simplest and most editent road machines on the American market.

Mr. Stevens believes in concrete highways and prepared boulevards, but he also believes that the earth road, which comprises more than 80 per cent of the country's highways, is of no less importance. "A concrete highway isn't going to do a farmer much good if he has got to haul his load three miles through hut-deep much load three miles through hut-deep much load three miles through hut-deep much

magness, isst going to do a farmer much good it he has got to haul his load three miles through hub-deep mud before he gets to it." Is Mr. Stevens attitude.

The farmer is the man who is going to pay for most of the country roads and although concrete roads are need to be a second and though concrete roads are needed to be a second to

UTAH TO SPEND \$8,000,000

Part of Money is to Be Spent for improvements on Arrowheat Trail to California.

The stute of Utah has decided to spend about \$800,000 on roads in the next two years, with an expenditure this year of about \$2,000,000. Some of the Utah millions, which der made up of state and federal funds, are going to the used on the development of the Arrowhead trail, which is tribatary to all parts of southern California, from San Diego and Imperial valley on the south to Presso and San Luis Obispo on the north.

\$300,000,000 FOR HIGHWAYS

m Which if Capitalized at 5 Per Cent Would Represent Invest-ment of \$5,000,000,000.

ment of \$5,000,000,000.

Givernment rend officials estimate that coal construction and maintenance in the Dated States inforce an annul outlay of over \$50,000,000, as any which temperatures of \$5,000,000,000. There has forced \$5,000,000,000. There has forced \$5,000,000,000. There has forced been a instruction of the second state of \$5,000,000. There has forced been a instruction of the second state of \$5,000,000. There has forced been a instruction of \$5,000,000.

Roads Must Be Linked Up.

We are to keep costs down, our
what must be linked up and there
the through trunk lines provided
which feeders can be built.

Hauling costs are lowered by good roads because the size of the load is limited by the worst spot in the road.

One of Major Activities.
Road building will shortly become one of the major activities of our government.
