Keep Fit

To be in perfect physical condition, to be well and strong, to have energy and vigor—to keep fit—is the joy as well as the duty of every person.

If you want to keep fit, don't neglect the first symptom of kidney trouble. Act promptly at the first sign of puffiness under the back of the neck, in the sides, swollen or stiff joints, rheumatic pains. These signs indicate that the kidneys are not doing their duty. They are the first signs of kidney trouble. They are the first signs of kidney trouble. They are the first signs of kidney trouble.

Foley Kidney Pills

help overworked, weak or degenerated kidneys and bladder by their tonic, irrigating, healing action. They are made of the purest and best medicines procurable and are compounded in strict conformity with National and State pure food laws. They have helped thousands of men and women.

Col. F. P. Cobham, Erie, Pa., writes: "As a chemist I am not prone to the use of drugs, but must say that I have been forced to yield in favor of Foley Kidney Pills which have done me so much good I cannot recommend them too highly. I thank you for the results derived."

FRIENDS OF THE ENTERPRISE

are requested when they have Probate business to ask the publication of the legal notice in this paper. By so doing they will be at no more expense than elsewhere, and will do us a great favor.

Use for Rat Skin.

Exhibiting the cured skin of a brown rat, the veterinary inspector of New-Haven, Eng., pronounced such skins superior to the listings found in some expensive coats. The difficulty in creating a rat skin industry appears to be the uncertain source of supply; but the demand that would be aroused would be an incentive for destroying the rats that now constitute so serious a plague. The bodies of the animals need not be wasted, as they form suitable food for pigs, poultry and dogs.

PROPER AMERICAN IS SIMS

Many Reasons Why Rear Admiral Has Obtained and Retains General Popular Regard.

Rear Admiral Sims came quietly into town the other day, made a speech or two, and when he left he had Washington hanging to his very abbreviated jacket tail. Folks here certainly did like the admiral. A popular idea that Admiral Sims of Washington is pretty good.

These are some of the things the people liked about the admiral: He said very positively that he will not write a book on the war; he referred to the navy's part in the war as its "stunt"; he boasted General Pershing to the skies, indicating that the admiral is without a jealous streak; he referred jealously to himself as "the only rear admiral in captivity" and said he was glad to exhibit himself if the folks wanted to see him; and, best of all, he took time to talk with every one who could squeeze a word into his conversation.

Down at the Union station, when the admiral was boarding his private car, a gray-haired woman rushed up and shook his hand warmly.

"This is the proudest day of my life, admiral," she said. "I now have shaken hands twice with you."

"All right, my dear lady," the admiral replied, raising his cap. "I'm glad if meeting me pleases you. Come around again the next time I'm in town and we'll shake a third time."

If any further proof that the admiral is human were needed, it might be stated that he plays a rattling game of handball—Washington Star.

OLD THINGS UNDER THE SUN

Democracy in Ancient Jewish Days and the League of Nations. Are Two.

The democratic idea is of great antiquity, the Christian Herald reminds its readers. Under the prophets and Judges, Israel was a democracy. It was not until they were fascinated by the barbaric splendor and unrestrained license of the heathen nations around them that they began to be dissatisfied with their own simple ways and to long for a king and a showy court. It was the lure of sin and worldly vanity. Samuel warned them against courts and kings and told them of what would happen, but his warnings went unheeded. The vision of the age of peace began as early as eight centuries B. C.; but it was not until the Christian era that the world change in the eternal order fully dawned upon the minds of men. The idea of a league of nations is not new. Such a league was foreshadowed by Jean Bloch, in his remarkable book, "The Future of War," issued 20 years ago. It was also foreseen by Emanuel Kant, who, in his essay on "Perpetual Peace," wrote that the law of nations must be based on the federation of free states. At different times leaders in national and international reform have had visions of such a league, but always as a possibility of the remote future. It has remained for the United States to promulgate it at a time when the world seems prepared to listen.

Wiping Out Predatory Animals.

During 1918 hunters of the United States department of agriculture killed 53 gray wolves in New Mexico, 34 mountain lions, 15 stock-destroying bears, 1,899 coyotes, and 350 bobcats, we are told. These animals were killed at a total expense of \$24,800, and the saving effected by their destruction, on the basis computed by stockmen, amounts to \$215,050 annually. Hunting during the spring period destroys many young, and thus prevents increase. Many coyotes are not secured for the figures given were destroyed by poison. The killing of these animals marks a long stride in extermination of gray wolves and other predatory animals, and the saving is cumulative for years to come.

Pass the Salt!

Two reporters were boasting of the speed of their shorthand writing.

"Whenever I am reporting at a meeting on a warm evening, all the people try to get near to my table."

"Why?" asked the other.

"Because," said the pen pusher, "my hand goes so fast that it creates a current of air like a fan."

"A mere nothing," said number two. "I always have to report on wet paper, or else the current of air caused by the movement of my hand would blow it away. Besides the paper has to be wetted every few minutes, because the friction caused by the rapid movements of my arm would set fire to it in no time."

Do you want to sell? Let people know it through our liners. It only costs a trifle and pays big interest on the investment.

To Play Great Organ at the Methodist Centenary

MRS. MONTGOMERY LYNCH of Seattle will play the great \$50,000 organ in the presentation of "The Warfarer," the magnificent playant of the Methodist Centenary Celebration, in Columbus, O., June 20 to July 13. Montgomery Lynch, her husband, will direct the chorus of 1,000 voices, which is a part of the pageant.

REDUCED FARE ADDS INTEREST

Visitors to Methodist Centenary to Be Well Cared For.

REGISTRATIONS ON INCREASE

Housing Committee of the Celebration Have More Than Forty Thousand Rooms in Private Homes at Their Disposal. Where These Who Attend Can Be Lodged as Conveniently as at a Hotel.

Announcement by the government that a special low rate of one and third fares for the round trip has been authorized for the celebration, Columbus, O., June 20 to July 13, has tremendously increased the interest in that event and advanced manifold the inquiries and registrations coming from all parts of the United States. At headquarters the other day a single mail brought cash registrations from 14 separate states and South America.

The low rate has increased work for the special committees, which are responsible for housing the large influx of visitors now seen to be certain. Accommodations fall into three classes:

First, the hotels, which have an average daily capacity of 5,000 visitors.

The second field of accommodation will be in public buildings, which have been specially fitted up for this sort of service for the celebration. These include the State School for the Blind, the State School for the Deaf, the large barracks, which were provided at Ohio State university for the student army training corps, and other buildings of a similar nature held in reserve should the throng exceed even present generous expectations.

The third line of convenience for the hospitality of Columbus is in the homes of the citizens themselves. More than 40,000 rooms have been allotted with the housing committee, and these are card indexed by location, telephone number and best means of access. Visitors to the celebration can be lodged as conveniently as at a hotel as a clerk at a hotel assigns a visitor to his room. In order that there might be no misunderstanding, the committee in charge has a uniform rate for accommodations in private dwellings. The charge will be \$1 per day for a single person in a room and \$1.50 per day for two persons in a room.

Always generously provided with restaurants, Columbus at the present time is having its summer largely reinforced by reason of many places being turned into restaurants, a whole were occupied as cafes before May 24, when the state became dry. In addition to these, extraordinary facilities for feeding large numbers quickly are being installed in the exposition grounds.

MONSTER SCREEN AT METHODIST CENTENARY

Special Lantern Devised For Throwing Pictures.

Finishing details are being placed on the arrangements for the screening of the largest screen for the projection of pictures ever built in the world. This is to be one of the features of the Methodist Centenary Celebration to be held in Columbus, June 20 to July 13.

This monster screen will have a surface for pictures 115x115 feet. The actual structure will be several feet larger in each direction. A special lantern has been successfully devised for throwing these tremendous pictures the necessary distance. The screen will be 250 feet from the nearest spectator and will be built to withstand 40 pounds pressure to the square foot. The lantern which will project these pictures has already successfully thrown pictures on a screen in New York City across a distance of four and a half city blocks.

According to Architect Harry C. Holbrook, the screen will be, in effect, three sides of a house. It is necessary to give it the foundations equivalent to a four-story building.

In order that there may be as much salvage as possible after the screen has served its purpose, the picture face will be of steel lath, which later will be treated with a white surface preparation.

The estimated cost of this screen will be \$5,000. The screen and the lantern will be used in showing tens of thousands of views, made all over the world by the Methodist Missionary Survey, which has the finest collection of pictorial reviews anywhere in the world.

Columbia Professor in Charge of Exhibits at Methodist Centenary

PROFESSOR LA MONT A. WARNER of Columbia university is director of fine arts and designer of exhibits and scenery for the Methodist Centenary Celebration, in Columbus, O., June 20 to July 13. On plans which he laid down, the multitude of exhibits, domestic and foreign, have been arranged in the buildings in scenic effects, making them at once appropriate and effective.

Professor Warner had charge of world exhibits held in Boston, Chicago, Baltimore and Providence in past years, and has studied and made abroad.
