Beauty Horoscope

BEAUTIFUL FORECAST . . . Astrologers predict that the current Age of Aquarius will be one of joy, science and accomplishment. Join in the fun with a clear, pretty complexion. Pamper it with special mist treatments from your beauty appliance so it will enhance the bright new fashions of the season. The attractive result is something you can truly admire in a three-way lighted portable mirror, a Saunda Vanity.

WHAT DO THE STARS DECREE IN BEAUTY?

In this age of Aquarius, you may be misguided if you think "hair" is the prime beauty consideration. This fall, as never before, complexion beauty will be the catalyst that turns on the zingy new styles.

At least that's the forecast by a leading astrologer for Saunda, Inc., Chicago beauty products manufacturer. Our astrologer says that women born under the signs of Taurus, Gemini, Leo, Libra and Aquarius will be more successful in their quest for beauty than the other signs. Beauty is dominant in their horoscopes, hence uppermost in their minds. For the other seven signs, attaining beauty will be an uphill and difficult struggle because it may not seem important.

Thus, Scorpio, with her seductive manner; Sagittarius, the good cook; Aries, with her outgoing personality — none of these characteristics by themselves, will be sufficient to offset casual attention to the complexion. They will be helpful; but this year, by themselves, they will not bring desired social success, according to our astrologer. The accent is on the face, which means a glowing complexion.

Clean skin is the first step to a good complexion, and in accomplishing this, you can thank your lucky stars for such aids as a beauty appliance, a facial scrub, moisturizer and, freshener, from Saunda — all designed to provide a beautiful complexion in a few moments — right at home. This mist machine treatment is the first step in relaxing and cleaning the skin. Clouds of warm mist engulf the face in a few seconds after plugging in the beauty appliance.

After the mist treatment, generously apply the facial scrub to remove scaly patches

and any deep-seated grime not loosened by the warm vapor and natural perspiration flow. Rinse off the scrub with warm water.

Next apply a few drops of the freshener to tone the skin. And finally, massage in the moisturizer to restore the moisture balance before you apply makeup.

Not only will your complexion be "squeaking clean" but it will have a delightful rosy glow.

And ready to face the future. You may be interested in what our astrologer predicts may be some successful matches for the year ahead.

Aquarius (Jan. 21 to Feb. 19) is a good match with the secretive Scorpio (Oct. 23 to Nov. 21). These two water signs match well this fall. Our second favorable sign is Libra (Sept. 23 to Oct. 22). Librans, neat and easy-going, are good matches with the worrisome, picky Virgos (Aug. 22 to Sept. 22).

For the royal Leo (July 22 to Aug. 21) the Piscean dreamer (Feb. 20 to March 20) makes an ideal partner. And for the flighty Gemini (May 21 to June 21) the Arian (March 21 to April 19) is perfect.

Taurus (April 20 to May 20), with that slight stubborn streak, is a good match with a Sagittarian (Nov. 22 to Dec. 21). Both are outdoor signs, and get along readily. For Moonchildren (June 22 to July 21) and Capricorns (Dec. 22 to Jan. 20) the signs are unsettled, indicating uncertainty as to their perfect mates.

Armed with this horoscope, and a beautifully fresh complexion, this should be one of your best seasons.
