A-B-C SUPER ELECTRIC

America's Leading Washing Machine

When you buy an A-B-C Electric Washer you obtain the benefit of a SERVICE
that has a cash value far in excess of the cost. It is a real INVESTMENT—not an
expenditure. It more than pays for itself the first few months through what it does
and what it actually saves you. To possess one is ECONOMY—"putting off" buying
is a positive extravagance.

The A-B-C Super Electric combines EVERY "worth while" feature of other makes
with several exclusively its own. Here's the proof—its "14 points" of superiority:

1. Most efficient washing principle—re-
volving cylinder, reversing after each
revolution, the only washer combining
every advantage of both the cylinder
and oscillating types.
2. The only full cabinet cylinder washer.
3. The absolutely safe washer—all moving
parts enclosed.
4. All-position wringer—is electrically
driven.
5. Washes quickest—hot suds forced
through clothes 14 times each minute.
6. Most quiet running washer ever built.
7. Most simple in construction—fewest
number moving parts.
8. 50% oversize motor— $\frac{1}{4}$ horse power.
9. Adjustable belt drive—prevents motor
"burn-outs."
10. White maple cylinder—most sanitary
and doesn't tear clothes.
11. Most attractive in appearance—a real
ornament in your home.
12. Costs only 1-3 as much to operate as an
electric iron.
13. Guaranteed against all defects.
14. Tested and approved by The Good
Housekeeping Institute.

See us about putting your HOME. THE PRICES ARE RIGHT. It will be the best
money you ever invested.
