Energy

THE WORK OF THE KIDNEYS is to filter and cast out waste products and poisons from the blood stream. When the kidneys are overworked, weak, diseased, the waste matter remains in the system and causes pains in side or back, rheumatism, hiccups, stiffness of joints, sore muscles and other symptoms.

When a person's kidneys are out of order, there is lack of energy, force, vigor, and general effectiveness. Kidneys and bladder must properly function for a person to enjoy good health.

Foley Kidney Pills

are prompt in action and tonic in their building and soothing effect on weak, sore, overworked, diseased kidneys and bladder.

Mrs. Mary Henderson, Mt. Carmel, S. C., writes: "Before I used Foley Kidney Pills I was troubled with kidney trouble and my left side hurt more I could hardly get up in the morning. Pain is all gone now and am feeling fine."
