IT PAYS TO READ
-ADVERTISEMENTS

You've often heard the saying, "It pays to advertise." That is **Certainly True**. And it also pays to read the advertisements—pays you. If you read advertisements consistently for any length of time you will agree that this statement is also true.

It pays you in money saved. There are many real bargains offered from time to time in the advertisements appearing in this paper. Watch for them.

It pays you in satisfaction. When a merchant asks you to come to his store he obligates himself to sell you quality goods "as advertised." You have a right to expect satisfaction from what you buy and you get it.

It pays you in money saved. When you know exactly what you want to buy and where you want to buy it, you don't have to "look around" and waste time finding it.

Don't you want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.
