A Michigan Case
 Alex Poppler, blacksmith, Union St., Reed City, Mich., writes: "I was a physical wreck. I had a kidney trouble. For four years I could not move without assistance. My back and legs ached so much that I could not sit. I was a little control of the kidney secretions and the passages were painful. My head ached a great deal. A friend told me to give Doan's Kidney Pills a trial, and eight boxes cured me."

Clear Your Skin With Cuticura

OLD SAYING SLIGHTLY MIXED

Familiar "Before You Could Say Jack Robinson" Does Not Convey the Right Idea.

Opinion differs as to the proper definition of a social call. "Anywhere from ten minutes to a half hour," says the woman who has a social secretary and whose daily job is "calling" to the tune of tea and wafers. "All afternoon," says the bourgeoisie, who takes along her knitting and sits down to coffee and cake. "And then," says some, "it depends upon the call. On some occasions and with different people we stay longer than others." But Jack Robinson's calls never varied. He never stayed long enough to wear out his welcome. In fact hardly had he been announced, hardly had the servant who admitted him spoken aloud his name than he was gone. So, as you see, "before you can say Jack Robinson" has no reference to the time it takes to say it. "As long as you can see Jack Robinson" would be more in order with its origin and significance.

Could Understand Them.
 Robert was visiting me and he went into the library one rainy day to get a book. He picked up a book that happened to be a French book. I said: "I'm afraid you can't read that book, Robert. You had better take one written in English."
 "Oh," he said, "it isn't so bad. You see the pictures are in English."—Chicago Tribune.

QUICK! YOUR HAIR NEEDS "DANDERINE"

Check ugly dandruff. Stop hair coming out and double its beauty.

A little "Danderine" cools, cleanses and makes the feverish, itchy scalp soft and pliable; then this stimulating tonic penetrates to the follicled hair roots, revitalizing and invigorating every hair in the head, thus stopping the hair falling out, or getting thin, dry or fading.

After a few applications of "Danderine" you seldom find a fallen hair or a particle of dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

A few cents buys a bottle of delightful "Danderine" at any drug or toilet counter.—Adv.

REALLY NOT WAITER'S FAULT

Mr. Green's Perfect Mastery of the French Language Evidently Was Too Much for Him.

Mr. Brown and Mr. Green were taking their long-talked-of holiday in France. For three months Mr. Green had been learning French—by correspondence—and thought he had mastered the language.

One afternoon the pair went into a cafe to have tea, and Green, who always insisted on doing all the talking, gave the order to the waiter. When, however, the tea things were brought, he noticed that something was missing, and spoke angrily to the waiter about it.

"My dear fellow," objected Brown, "what on earth are you saying?" "Will you kindly refrain from making your absurd criticisms of my use of the French language?" retorted Green.

"Oh, certainly!" answered Brown. "Only it seems rather a waste of time to ask the waiter to bring you a staircase when what you want is a teaspoon!"—London Tit-Bits.

Lost Opportunity.

"It is a pity those people who 'used to fast for peccs' couldn't get the pleasure in their theory."

"Why so?"

"Because if the idea had been taken up and practiced, the ultimate consumer could be striking now."

Too Loud.

Hewitt—"This is a pretty dead place. I should say so; a still alarm would be considered a violation of the ordinance against undue noises."

"Just Joy Riding" Say Women.

London.—Women dressed in the uniform of the Wasca (Women's Auxiliary Army Corps), the organization which proved of such value during the war, are proving the worst automobile thieves with which Scotland Yard has to deal, according to an inspector in charge of the chase. They frequently work in couples, and when caught in the act smile archly at the owner of the car with the remark, "We were just off for a short joy ride." As a rule they are allowed to go.

The Effects of Opium.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, and of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of using opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly deprecated, and the thought should not be a party to it. Children who are ill need the care of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Cautions can be no narcotics if it bears the signature of Chas. H. Fitcher.

Genuine Cough Syrup always bears the signature of Chas. H. Fitcher.
