

These walls should be Alabastined in the latest, to-the-minute nature color tints. Each room should own individuality and the treatment throughout be a complete perfect harmony in colors.

The walls of the old home, whether mansion or cottage, can be made just as attractive, just as sanitary, through the intelligent use of

Instead of kalsomine or wallpape

How much better, when you have a new home, to nart right than to have rrect errors afterward from former treatment with other materials, when some to the use of Alabastine, as does nearly every one sooner or later. Once your walls are Alahastined you can use any material over it should you desire, but having used Alahastine you will have no desire for any other treatment.

Alabastine is so easy to mix and apply—so lasting in its results—so absolutely sanitary—and to generally recognized as the proper decorative material in a class by itself that it is becoming difficult to manufacture fast enough to supply the demand.

Alabatine is a dry powder, put up in five-pound packages, white and beautiful ints, ready to mix and use by the addition of cold water, and with full deciral and a cach package. Every package of control of the contro

Encouraging Bolshevism

Everything that falsely encourages unrest also encourages bolshevism.

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism.

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil.)

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

But it failed to mention that the agreed price was deter-mined at the request of and in co-operation with the Food Administration!

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.

ADVANTAGES OF GOOD ROADS

Public Improvements Will Effect Mate-rial Reduction in High Cost of Living.

of Living.

"Food products were never higher priced or more needed than they were this many ear and yet the food administration areas that no many ear and yet the food administration areas that one half of our pershable produce rotted on the collistes," said-George C. Hubbs, sales manager for a large automobile concern. "Such a waste would be unleared of in Burope. It would spell national disaster. And at first thought it seems remarkable that it should be true of the country which has 229,931 miles of relitrond as against 340,301 miles for all the rest of the world put together, and 6,000,000 motor vehicles as against approximately 400,000 for the prest of the world.

"But we must remember that all this great network of railroads and waterways might as well not exist, so far; as the farmer located five miles

eack in the country is concerned, un

Quickly.

hack in the country is concerned, unless he is able to advantageously hurl his produce over that five miles to the nearest shipping point. As Secretary Redfield recently put it, You might build, the railroads, up until they are ten tracks wide, but you do not fully help the farmer ten miles away to get his produce to market. And you might fill the rivers with steamers, and he miny still be isolated.

"Motor cars and motor trucks are a purtial solution. But they are not enough. To use them advantageously requires good roads as well, over which the farmer can haul his ended to the consumer, where pushels, or ess to the consumer, where pushels, or ess to the market and motor trucks are the consumer, where pushels, or ess to the market a mounder investment in the building of good roads. The Romans hall tearned that 2,000 years ago, and they built their roads so well that some of them are used yet.

"Certainly one of the surest ways to reduce the high cost of living is to build more good roads. And the build now campaign which Mr. Wilson, secretary of labor, has recently started should receive the hearty support of everybody."

WILL TEACH HIGHWAY WORK

University of Michigan Announce Course in Road Transport to Its Students.

Its Students.

One of the most farreaching developments to place our national highway system on a sound, uniform and economical bands is the recent any nouncement by President H. B. Hutch has that the University of Michigan will offer a course in highway transport to its students, says the B. F. Goodrich Rubber company.

The significance of highway freight transportation was vivility brought to light by the war and is now recognized, as much a part of our shipping and communication scheme as are the railroads and the steamship lines.

INVESTMENT IN GOOD ROADS

Does Not Become Real Economy Until Provision Is Made for Proper Maintenance.

Trepared by the United States DepartInvestment of Agriculture.)
Investment of money in new roads
does not become received the propersonal investment of money in the pretonals in anothtion after they are
built. If a new road is built and then
allowed to fall into disrepair; much of
the original investment is simply
wasted.

To Secure Permanency.

It would seem advisable that in the construction of all roads, some good, durable material should be applied as a top covering in order that permanency may be secured.

Drag Troublesome Road.

If you and your neighbor are havng trouble over your road, don't drag
into court. Just drag it. Anybody Can Bulid Road.

Anybody can build a good road—if
ou give him enough money.

Too I to Work

Scores of Women

in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable. Compound, which for more than forty years has been restoring American Women to health and strength.

Here is a Notable Example

Here is a Notable Example Jopin, Missouri.—"I took Lydia E. Pinkham's Yegetable Compound to see if it really would do as it was advertised and it sure did, and more. I was weak and could not do much work, had-bearing down pains and had to go to bed. I learned about the Vegetable Compound from my mother and my husband told me to get it. After taking one bottle I was able to be on my feet most of the time and do my work again. I have a baby eleven months old and I have done all my own work, even the washing and eleven months old and I have done all my own work, even the washing and ironing since she was three weeks old. I certainly recommend your great medicine to everyone who complains of female trouble and I am more than willing for you to use my testimonial.

—Mrs. TIMOTHY GRANEY, 426 Connor Avé., Joplin, Mo.

And Another

And Another Chicago Illinois.—"I suffered for four years with pains in my sides, hips and legs and a terrible backache. I could not do any lwork at all. I was treated by many physicians but they did not help me. I read in one of your books where other women have been helped by Lydia E. Pinkham's Vegetable Compound so I tried it and lit helped me very much so that now I can do everything in the house." I have told my friends about Vegetable Compound and you have my permission to use this and you have my permission to use this letter."—Mrs. I. OVENSTEIN, 902 S. Marshfield Avenue, Chicago, Ill.
