

The Farmington Enterprise

VOL. XXXIII No. 51.

FARMINGTON, MICHIGAN, FRIDAY, OCTOBER 31, 1919.

\$1.50 A YEAR.

WILL HAVE 90 PER CENT

Proposed Gravel Road From Novi to Farmington By Way of the Base Line Road.

Will have 90 per cent Ex-Gov. Warner attended a meeting at Northville a week ago in the interest of a 16-foot gravel road, beginning one mile south of Novi on the Northville road and running south two miles to the Base Line road; thence east five miles on the Base Line to what is known in this village as Division street, and north to the Grand River cement.

Mr. Warner tells us that 90 per cent of the property owners along the route have signed the petitions and that undoubtedly the road will be built. The road as requested will be 16 feet wide with four-foot shoulders on each side, and will consist up a large territory with Northville, Farmington and Detroit, some of which is very badly in need of an outlet, and will be one of the best feeders for this village yet attempted.

The Base Line road in some places is almost impassible in the wet weather and one farmer along the route said he would be willing to put up a thousand dollars if the road could not be obtained otherwise, and that almost everyone along the line was enthusiastically in favor of the improvement. obtained enthusiastically in favor of the improvement.

With the completion of this stretch of road the Wayne county road commission will undoubtedly improve the road south of the Base Line to the Seven-Mile road, making the connection with the city and all towns in this vicinity almost complete.

Big Meeting at Lansing.

The annual meeting of the Michigan Milk Producers' association at Lansing last week was represented by nearly every dairy section of the state, about 700 delegates being present.

President N. P. Hull gave an address setting forth the work that had been accomplished during the past year, and the success that had been given the association in their efforts to help the farmers, stating that it was his opinion that the association was the only "stronghold" of the farmers today.

The delegates were also addressed by such able men as Prof. A. C. Anderson, of the M. C.; Hon. Milo D. Campbell, president of the National Milk Producers' Federation; Prof. Oscar E. of Columbus University, who proved by figures that it cost \$4.40 to produce a hundred pounds of milk at the present time; Hon. D. E. Allen, president of the National Holstein-Friesian association, spoke of needed legislation for the benefit of the farmers of the nation.

The officers of the past year were announced as follows: President N. P. Hull, Lansing; secretary, R. C. Ried, of Howell, and treasurer, H. W. Norton, of Howell.

The Farmington local was represented by Charles Ely.

Has Been Converted.

A letter received by one of our business firms this week from Green River, Wyo., which we are printing below was written by a young man who recently lived in this vicinity and explains itself: "Dear Sirs:—As I have recently converted myself to the work of our Lord and Savior I am sending you \$2.00 for the chain I stole from you two years ago while hauling cement from your grounds. If you will kindly forgive me of stealing, God will bless you and keep you."

Although the firm had missed a number of chains and other tools they never knew where they went, and never suspected the writer of the letter.

Red Cross Drive.

Beginning Sunday there will be a Red Cross membership drive started in Oakland County, to continue until November 15th. Oakland county's quota is \$3,000, and it is hoped to get 15,000 members in this county.

The Red Cross is doing a good work, and while it is dependent upon philanthropic efforts, no one wishes to see its efforts retarded, and it is expected an easy campaign will be required to bring Oakland county and Farmington township up to their quota.

A part of each township's funds will be deposited in the local banks to be used in the locality in which it is subscribed, and not to be called for by county headquarters.

See what the liners offer.

Their Teacher Recovered

Miss Ruth Baker, for many years teacher of the North Farmington School, was taken seriously ill early this month and, forced to give up her work, her school board had her brought to the home of her mother, Mrs. Carrie Brown on the Burg Road, with instructions to remain until recovered. Last Monday she was sufficiently well to be carried from her home to the home of a friend in Southfield and is rapidly regaining her health. During her illness her school was closed—two weeks thus lost, to be "made up" at the last end of the term.

Miss Baker was the constant recipient of affectionate attentions and gifts from her pupils and their parents, during her illness, and feels she can never repay them for their kindness, except in a measure, by giving her most sincere interest and effort in conducting the dear old school along its progressive way.
