It has been very forcibly brought to the attention of everyone lately that Southern Michigan Banks are being victimized by an organized gang of Yeggs and Hold-up men.

It seems a timely moment to state the precaution this Bank takes toward the protection of its patrons and friends.

We carry Full and Complete Insurance against Burglary by Night or Hold-up by Day, covering both Money and Securities as well as damage to the premises and equipment, and as additional protection recently installed a New Round Door, Manganese Steel Safe, made by the Diebold Safe and Lock Co., of Canton, Ohio, the largest and oldest safe makers in the world.

There is, therefore, no possible chance of this Bank or its Depositors losing a single Dollar through the depredations of these outlaws.
