

IF

I only had MONEY in the BANK.

How many times has this one word "IF" stood between success and failure—happiness and misery—contentment and poverty? There is no man, but what at some time has faced a crisis which could have been passed with money in the bank.

"Puts a healing coat on the lining of the throat."

FOLEY'S HONEY AND TAR

A COUGH that threatens to rip and tear out the lining of the throat, that seems to jolt and jerk the chest beyond endurance, and causes an echoing thump at the back of the head as if you were hit with a sledge hammer—such a cough needs a cooling, soothing medicine like **Foley's Honey and Tar Compound** to cool the raw, inflamed surfaces with a healing balm.

Foley's Honey and Tar Compound has been used in many instances of severe bronchitis, la grippe and other racking coughs that debilitate.

What Foley's Did For One Man

J. D. Enterkin, Winston, Ga., writes: "Several years ago I had a terrible attack, both lungs being inflamed. After recovering somewhat my lungs never 'cleared up' and I suffered severe pains, which I had for three months and couldn't get well. I got one 50c bottle of **Foley's Honey and Tar Compound** and it alone entirely cured me. It took all the soreness away and cleared my lungs. It is the most valuable medicine I ever used. I cheerfully recommend it."

Are You Prepared?

Foley's Honey and Tar Compound should be in every home. No cold should be neglected, however slight. It should be taken in liquid promptly and cleared just as soon as possible. The sooner it is taken the better for the sufferer. So don't experiment. Get the genuine **Foley's Honey and Tar** today and have it ready for coughs, colds, croup, whooping cough, la grippe or bronchial coughs.

Ford

THE UNIVERSAL CAR

The Farmer will find the Ford Model T One Ton Truck an especially valuable factor in his business because of the flexibility as well as the reliability of the service given by this splendid truck. The worm-drive of manganese bronze carries all the power of the motor driving the Truck, and there are combined in larger and heavier form all the elements which have made the Ford Model T Car the greatest motor car in the world in operation and maintenance. The Ford Truck with its worm-drive is the most economical in operation; there is simplicity in control; if anything, to get out of order at any time; there is simplicity in control; there is the convenience in the flexibility of the car, it will turn in a circle of 48 feet; it accommodates itself to narrow ways, and it "stands the gauntlet" of hard work day after day, and month after month, to the great satisfaction of the owner. There is hardly a line of business activity where the Ford One Ton Truck is not really a necessity. COME IN AND TALK IT OVER.
