Soot Destroyer

Coal is expensive and difficult to get—don't waste it. Heating through soot is quite a waste of coal. Keep on hand one five-pound container, and use systematically. It saves many times its cost in coal bills, besides the inconvenience of cleaning pipes, chimneys and flues. U. S. Soot Destroyer cleans from flue box to the top of the chimney. In one pound at 25 cents; five pounds \$1.00.

THE OLD BANK ESTABLISHED 1898

Member Federal Reserve Banking System

It has been very forcibly brought to the attention of everyone lately that Southern Michigan Banks are being victimized by an organized gang of Yeggs and Hold-up men.

It seems a timely moment to state the precaution this Bank takes toward the protection of its patrons and friends.

We carry Full and Complete Insurance against Burglary by Night or Hold-up by Day, covering both Money and Securities as well as damage to the premises and equipment, and as additional protection recently installed a New Round Door, Manganese Steel Safe, made by the Diebold Safe and Lock Co., of Canton, Ohio, the largest and oldest safe makers in the world.

There is, therefore, no possible chance of this Bank or its Depositors losing a single Dollar through the depredation of these outlaws.

And our SERVICE is on a PAR With Our SAFETY.
