# WARNING!

Don't think that by buying a talking machine that it is claimed will play New Edison Records, that you will have New Edison music, music that in tone tests where the New Edison recreations cannot be distinguished from the original when tried side by side as has been done before over a million people.

## For Music's Recreation

For perfect music the New Edison Records must be played on the New Edison phonograph for not only the record different but the New Edison Phonograph is altogether different from any other, it being a very recent invention of Thomas A. Edison and is patented.

Any record played on the old style talking machine (this includes all except the New Edison notwithstanding what is claimed for them) will give you that stringent, metallic talking machine music so distasteful to sensitive ears.

To prove to you this difference we have a truck you use exclusively in placing New Edison in homes on free trial where you can if you desire try it beside any other make. We do this anywhere so don't feel that you live too far away but drop us a postal now or phone us, Hemlock 4421 and find out what a wonderful instrument the New Edison is. No need to change, indestructible records, Beautiful new models as low as \$95.00.

"BLOODLESS SURGEONS"

Each staff member has at his command the knowledge and resources of the organization. Many people suffer from diseases that can be alleviated just because they cannot afford to go to high priced Specialists and Hospitals at a long distance from their home. No community has a sufficient number suffering from these diseases to support special Hospitals for their treatment and cure. The United Doctors have solved the problem. Their highly trained Specialists go to each community and will advise a proper course of treatment for the sufferers and instruct them how to take care of themselves at home. No matter what you have been told or the experience you have had with other physicians, consult him on this visit. At no cost nothing. If your case is incurable he will give you advice as to how to relieve the disease. Married ladies must come with their husbands and minors with their parents or guardians.
