The fashion plate

Skin care that renews

By RUSTLE SHAND

Leah Karten who has influenced the beauty and feshion statements of governors' wives, diplomats' wives and "jet-setters," brought her ideas for the total makeup look to this area recently.

"The proper makeup is essential for today's took" asid the representative of 'Princess Marcella Borghese. "The makeup and clothes you wear should not be separate statements." "The most important part of makeup is skin care" explained Leah in her appearance at Hudson's. "A woman can put on makeup but if her skin is not in good condition, she will not achieve today's healthy, younger and more natural look. She will look made up."

in."

Leah has been beauty and fashion consultant for the International Fashion Ladies Association in the West Indies and has worked with top couture bruses in Europe designing makeup looks and directions. She has worked with the designers at Printemps in Partis, and has directed such famous faces as Zas Zas Gabore, Leslie Caron, Verushka, can all Bobo Rockefeller in their total skin care regimen.

as Set 224 Goldon's Estate Carlon's Hesithda, and Dobo Rocketelher in their total skin care regimen.

THE PURPOSE of her visit was to introduce the new Borghese system called Catalyste. A five steep program, Catalyste hes the overtones of a space-spergoram, for skin care. The products, she said, must be applied in sequence. But first, a computer helps each client to determine whether or not her particular skin type will respond well to Catalyste on another of the Borghese programs. Catalyste has been developed for dry skin under ber premise that there is in most women a skin renewal cycle that takes approximately 28 days. This approach to skin care takes into consideration the various climatic changes today's skin encounters. The Catalyste approach is for the woman with dry skin. It is a complete care program designed for the woman who lives in overheaded or air-conditioned surroundings, flies here and there, plays golf and tentin and depletes skin moisture through dieting.

It is a new method for creating a moist, clean skin which acts as a flawless canwas for cosmetics artifuly applied with sporges and brusshes. Several testers with dry skin have reported "it works." In a 28-cycle of using the new "catalyste" program they say their skin no longer looks and feels dry but is glowing and moist.

Dear Lorene,
When I was a Latin student in high school, I had a teacher who was a handwriting buff. I would be curious to know how your analysis of my script compares with the things I heard 20 years ago.

A.D.— Drayton Plains

I do not know what your Latin teacher found in your handwriting 20 years ago, but I would like to share my findings with you. Basically you are quite an emotional person and at times impulsive (extreme rightward slant). The extreme shart also points up a lack of inner resources, a dependency on your environment. You are caring and often quite charitable (terminals that are extended out on the ends of most of your words). However, the closely spaced letters of your writing tell me that you are also inhibited and tend to hold back on these feelings. You do not relate freely to others.

At the time you wrote this letter you

relate freely to others.

At the time you wrote this letter you were depressed and somewhat unhappy (shown by the endings of your y's and g's that droop and some of your writing lines slope downward also).

of your writing miss stope downward.

I feel very concerned about the many signs of Insecurity evident in your handwriting. A.D. The small books at the beginning of many of your works tell rive you have an acquisitive nature. This swarice is motivated by your need for prestige and security. The dwarfish lower toops tell you lack practicality. You have a very limited interest in the malerial side of life. I

interest in the material side of life. If feel you are not a mixer and spend much of your spare time at home. Are these things that you want so very much the things that will enhance your relationships with others?

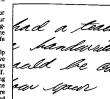

Often you insist on your own opinions (first letter of many words larger than the rest and this is augumented by the straight right side of many of your upper loops which suggests wanting to be the authority. Add to the above the sting of your frequent sar-

castic barbs (t bars that have points on the right end) and you often turn people right off.

The low crossings on many of your t's tell me that you seem to set your gals quite low. You are not challenging yourself, but merely doing the things you feel comfortable and safe with.

You might find some of the self help books such as the Power of Positive Thinking or Your Ernoneus Zones very helpful in understanding yourself. If you have a question regarding your personality, write to Lorence forcen, a certified graphologist, in care of this newspaper. Please use unlined peper and the first person singular.

of this newspaper. Please use unlit paper and the first person singular.

LEAH KARTEN

THE SCIENTISTS who produced this new program for the 150-year-old Borghese firm say the system protects against excessive transpeldernal moisture loss. It protects your skin from losing surface moisture, Ms. Karten added.

For particularly dry skin the skin care regimen features an intensifying oil as the fifth step following cleanser, toner, daytime moisturizer, or night-cream.

ing cleanser, toner, cayume moisurizer, or migurezeam.

Leah Karten maintains "pretty is as pretty bees" and adds "taking the time for good skin care is the basis of a clear and radiant skin."

Twenty-eight day statret kits are vailable at Hudson's for \$22.50. Full sizes of the regimen are available at \$120. AT the time of purchase, a customer is issued a "product privilege card" that allows her to buy single replacement products thereafter.

Energy focus of 4-H conference at MSU

An energy-packed program featuring hundreds of workshops, demonstrations and exhibits is slated for visitors at 4H Energy Days 78, June 2324 at Michigan State University.
Pocusing on the theme, "There's a
New Day Coming," the two-day event

Extension Service 4-H Youth Program in cooperation with the Michigan Energy Administration, the entire event is open to the public at no charge. The program begins on Friday.
