Slick, smart Halston simply great.

Halston has left his bag of tricks behind this fall. His made-to-order collection shines through with what he does best and what his customers love to wear—simple clothes, superbly cut in rich fabrics.

Gone are last season's gimmicky flying saucers and difficult intricate cuts. For fall, it's slick and smart with Halston's signatures—simple cashmere beauties for day and brilliant-colored charmeuses, silk jacquards and iridescent chiffons and lames for evening.

Also for daytime wear are Halston's great coats—his best and newest with softly rounded shoulders. They hang free or belt easily in double-face wool and brushed mohair. The colors are all the smart neutrals, black, and a seduc-

tive burgundy. Halston's versatile cashmeres are, he says, "to take a lady from the dentist, and having her hair done, to shopping."

They are best in three easy pieces: lots of pants, soft tops, and swirling capes. The shirt-tailed-hem jacket shows up over wool pants for day and works in sexy charmeuse for evening.

Other evening beauties include Halston's slimmed and tapered pants in electric red charmeuse and glittery iridescent lame; the black chiffon dress and the pretty, long, wispy chiffons shot with gold metallic stripes. The freshest evening toppers are quilted and cocoon-shaped.

To complement his fall collection, Halston has teamed up with fashion meteor Elsa Peretti. Except for a

shoulder-slung, gold mesh and black braid tasseled rope, her accessories

are as subtle as the clothes they sometimes color-match.

Chips ahoy

Findings in a recent newspaper chocolate chip cookie contest are already obsolete. Surely if Springwater chocolate chip cookies, which did not hit the Detroit area until after the contest ended, had been tasted they would have taken the prize. Baked fresh daily in Detroit, the huge, soft, moist and chewy cookies are made from all fresh ingredients including real chocolate chips, pure cane sugar, fresh eggs, real creamery butter, wheat flour and, most important, pure spring water. You can also purchase a 12-inch high glass apothecary jar, with the words "Springwater Cookies" printed on in chocolate brown lettering. Some of the places you can find them are: all Kroger Deli Departments, all Quik Pic stores and Sherman Drugs in Birmingham and Farmington Hills.

Pan handlers

What's cooking at What's Cookin'? Plenty as per usual. Since they moved to a new location, their cup runneth over with even more goodies than before. For example, this \$12 canvas bag is ideal to take on picnics to Pine Knob or Meadow Brook. There are designated pockets for spoons, knives, forks and cups on the outside of the bag. Your plates and what have you fit inside.

Tea for one

When your feet are weary from a long day on the road or the kids are getting to you again, here's a lovely way to cure your woes. Just brew 12 ounces of your favorite tea, put it into this charming pot (guaranteed to make you smile), drink up and relax. It's designed for tea for one and its three pieces include the pot, a top and a cup that fits over all so the cup is warm when your tea is ready. Blue and white and imported from Denmark, it costs \$35.

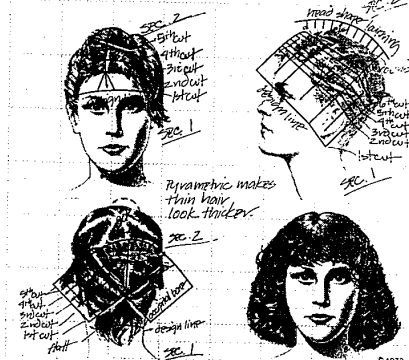

Wheels

Nowadays you need a lot more than a tux to travel. If you're like me and always carry a tote bag on to the plane with reading material and breakables, you're going to wonder how you ever lived without this sensational carry-on bag. Available in your choice of red canvas with navy vinyl trim (\$11.95) or red scotch plaid with black vinyl trim (\$9.95), the bag has permanent ballbearing wheels attached to the bottom. Twenty inches high and fourteen inches wide, it fits under your airline seat and it makes walking to and from the gate a breeze.

Use your head with Pyrametrics

If a great haircut that fits your personality and lifestyle is important then you'll want to know about Pyrametrics. No two heads are exactly the same, so Pyrametric haircuts are never the same. Here's how we use your head as a guide. Your head is divided into sections which serve as guidelines. Each of these sections is cut to perfectly rest on the one below, as if the building a brick wall. Section 1 the nape of your neck and up around your ears form the 'flat' area. This is the support system for Section 2, your crown, which is cut to reflect the roundness of its shape. The results are superb. Your hair will fall naturally, need minimum care. And an added plus, Pyrametric hair looks thicker and fuller. It can be cut long or short, can be curly or straight, but it will always be right for you. We'll show you how to use your head...with Pyrametrics.
