500 Help Wanted

INDUSTRIAL ENGINEER

We seek an eager individual who is systems and detail minded and wants more challenging work. You will use various measurements technology to develop labor and machine standards, analyze methods to reduce work and cost, do capital expenditure justification and develop basis plant lay-out. You will need 1-2 years industrial experience with a BSIE, however, "hands-on" experience is of primary importance. An Associate Degree with appropriate experience would be considered. An excellent salary and benefits package accompanies this employment opportunity. For additional information please submit your resume which must include salary requirements to:
