Prototype Machinist

We're a major engineering and research center heavily engaged in the development of a wide variety of mechanical products and components for industrial application.

We need an all-around machinist who possesses a journeyman machinist classification with strengths in milling and a minimum of four years experience in a model shop environment. Applicants for this salaried position must be also able to work directly from blueprints or sketches, machine and fabricate prototype hardware, set-up and operate a variety of machinery such as lathe, mills, grinders, forming presses, shears and jig borers, in addition to working with hand tools. This is a daytime position with a paid comprehensive benefits program.

Applications will be accepted at our Employment Lobby in Southfield, Michigan or you may write to us directly at:
