Figure 1: A schematic diagram of a 1D lattice with N sites. The lattice is represented by a horizontal line with N discrete sites marked by dots. The sites are labeled $1, 2, \dots, N$ from left to right. The lattice is divided into two regions by a vertical line at site $N/2$. The left region is labeled 'Left' and the right region is labeled 'Right'. The lattice is coupled to a reservoir on the right, represented by a vertical line with a double-headed arrow indicating interaction. The reservoir is labeled 'Reservoir' and 'R'.
