Sue McKinney is the young wife of a young mayor of the young city of Westland - and she obviously enjoys her new role to the hilt.

Blonde and attractive, Sue is ready to help Westland Mayor Gene McKinney wherever she can in his new administration. She has some pretty definite ideas on what she can do.

"The fact that we're both young brought some criticism during the campaign," Sue said. "And I guess we are pretty young - I'm 28 and Gene's 34. But I think our youth is going to work for us."

"We want to bring in new ideas and at the same time keep the best of the old."

BEAUTIFICATION, history, redecoration and a Christmas tree are at the top of Sue McKinney's private agenda for Westland.

"I really want to do something about making our city a more attractive place, and I'm thinking particularly of things like cleaning up parking lots," Sue said.

"The Westland council passed an anti-litter ordinance quite a while ago but it's never been enforced."

"I think it should be and I'd like to get other women to help me go to the merchants and make our city a beautiful place. I feel sure the merchants will be glad to cooperate when we're all working on it."

"But if you see me out in the parking lot with my little broom, you'll know I'm not a very good pessenger."

HISTORY also is claiming a good part of Sue's thought as she looks forward to her husband's time in office.

"The Wayne and Westland areas always have been considered together, so people in Westland who are interested in history are mostly members of the Wayne Historical Society."

"I'd like to see us form our own society. I learned a little about the activities of Chief Tompkins right here in the Nankin Mills area when I was working on the flag, seal and motto committee. I'd like to know more about him, and about the Civil War history that is part of this area."

THE OFFICIAL Westland seal, which Sue helped work out, contains a W for the city, a setting sun for the Westland name, and an eagle for power.

"That American eagle, a favorite symbol of Sue's and used in many places in the early American decor of her home, is going to reappear in another of her future projects - "redecoration Gene's office."

"I won't be able to do too much there," she said, "but I do hope to make it a little brighter with some pictures and decorations. And maybe I can add some things in red, white and blue - those are the city colors and my favorite color scheme."

5th Daughter Joins Family

A girl, Lisa Annette, is the fifth daughter in the family of Observer Newspapers regional reporter Dennis Pajot.

Coming home with mother Betty this week, she was born Thursday, Nov. 21 at St. Joseph Mercy Hospital in Ann Arbor, weighing seven pounds, three ounces.

She will be greeted in the Pajot South Lyon household by her 22-month-old sister Leslie Denise and stepbrothers Nicki, Sherri and Debbie Workman.

rate will be a city tree-lighting ceremony in front of the city hall Monday, Dec. 1.

ALL SUE'S administrative plans with of course, have to depend upon the schedule and needs of 21-month-old Kea McKinney, the tiny red-haired daughter who effectively rules the mayor's household.

Kea was adopted through the state Council on Adoptable Children, and the McKinnys are active supporters of that organization.

"We're hoping to get a little brother for Kea soon," her mother said. "The baby books all say you should add another child when the first one is about 18 months. But that was right in the middle of the election campaign so we thought we'd better wait a while."

Another thing recommended by the baby books is going to be pretty hard to follow, Sue thinks. "We know we should tell Kea she's adopted, and right now I can't see how I'll do it," she said. "We've had her since she was three weeks old, and she's so much a part of us."

KEA'S ATTENDANCE at her father's inauguration was to quote her mother, "complete chaos."

I ran out of cookies and she started crying," Sue remembered. "Fortunately, I had the

forethought to take a babysitter along, so she took Kea downstairs."

"Then we realized the public-address system was switched on down there so you could hear her crying all over the building."

A messenger was dispatched to turn off the PA - and Kea, so the mayor could get on with his inauguration speech.

THE MCKINNEY household also includes F. Scott Fitzgerald, a name shortened to Fritze by Kea. Fritze is a collie given Sue by Gene before they were married six

years ago, and he's grown to a whopping 70 pounds.

Sue and Gene McKinney both are former journalists and met while working for a local newspaper.

"Gene went into politics by way of serving on the charter commission, which didn't seem a political job," his wife said.

Then after the charter was adopted he decided to run for council to help carry it out, and on the council he decided things were as bad as he'd heard and decided to run for mayor.

Blend Eggs Well

If your custards have a way of turning out spongy because of little air bubbles, it is the result of beating the eggs too well. The trick is to simply stir in the eggs until well blended, but be careful not to beat until foamy.
