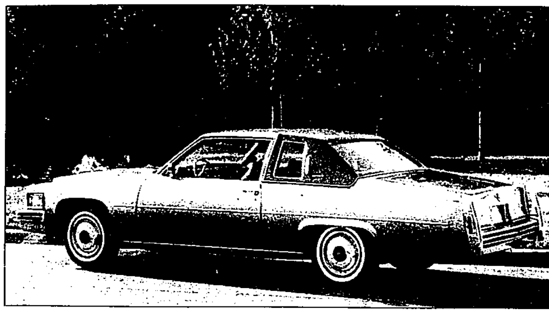
Coupe de Ville, Seville among Cadillac's models



Among the luxury models that Cadillac is offering this year are the full-sized Coupe de Ville and the smaller Seville. Both models are designed to get about 14 miles per gallon in the city and 20 on the highway. Standard engine for the de Ville is a 7.0-liter V-8, while the Seville has a 5.7-liter fuel-injected V-8. A diesel, with 21 and 29 mileage figures, is optional on the smaller model. The special edition Seville Elegante shown on the bottom here has two-tone paint, special moldings, wire wheels and a center console.
