# LUMBER SCAPING

It's the natural way to deck out your landscaping

## SO LONG OLD PAINT, FAREWELL FUNGUS, TAKE OFF TERMITES

America is decking out the out-of-doors with unpainted wood that's beautiful to look at, yet doesn't need looking after. It's called Lumber Scaping. And it's done with Outdoor Wood — real wood deep-treated with Wolman preservatives to keep it handsome, sturdy and worry-free for decades.

cheaper. And you don't have to paint it or stain it, unless you want to. Build yourself a beautiful backyard deck with Outdoor Wood. Leave it unpainted. Then, lay back and watch it blend in naturally with the landscaping. That's Lumber Scaping. And that's living. It's great for pole barns, machine storage buildings, and garages.

HABITANT the Number 1 name in wood fences for over 50 years.

INVEST YOUR WORK, TIME AND MONEY IN A FENCE THAT WILL LAST & LAST & LAST

Many stockade and other fence panels offered locally are made from spruce or other woods which have a very limited lifetime outdoors — even when painted or stained. Our line of quality Habitant fence items is manufactured from Northern White Cedar — a wood which has a natural resistance to rot and decay, much like pressure treated wood. It will last 5 to 6 times as long as spruce or other untreated white woods.
