Special Ed Program

Continued from Page 1A to Milliken. "They're trying to raise below-average schools to average, which is fine," the director says...

program for the deaf by ourselves. CUNIO SAYS state aid for special education will increase under the proposed system but not enough...

VOTERS in the county twice decided to support a special education program above the level of state aid, he says. Now the state government is preparing to tell them they can't have such a program.

In the letter to Milliken, Cunico says he is "100% in favor of the concept that the State of Michigan needs basic fiscal education reform."

"We should get rid of the bad but keep the good," Cunico says. "One of the educational areas that I believe we are considered outstanding in is programs for exceptional children in the Oakland County area."

The intermediate district became aware of the elimination of the tax last week when Oakland County's lobbyist in Lansing reported: "The one-mill special education tax is down the tube."

Cunico circulated a letter to parents in the Farmington district requesting they write to legislators and the governor in opposition to elimination of the taxing power.

THE MICHIGAN Association for Children with Learning Disabilities and other groups are planning to bring pressure to bear in favor of the tax.

Cunico says he expects his letter and "500 other like it" to be laying on the governor's desk soon. The way to retain the tax is to tell legislators they won't be supported for re-election unless they save the tax, he feels.

"It is my opinion that the quality and quantity of the special education programs offered to children of Oakland County are a direct result of not only the monies that we receive from the State, but also the amount of money that we receive via the local special education one-mill tax base."

"It would be my fervent hope that special education reform package would not eliminate this one-mill tax opportunity that the people in Oakland County have exercised," Cunico's letter to Milliken says.

WEST FRANKLIN parents may still feel their children should be bused. But, hopefully, they now know why school officials are so adamant about the 1-1/2 mile limit.

That's why school officials don't budge easily on busing. If they do, there has to be some pretty special extenuating circumstances which justify the risk of opening Pandora's box.

THE MOST IMPORTANT DISCOVERY YOUR CHILD CAN MAKE Children are natural "discoverers." They love to learn about, and to use new ideas. They like to solve problems. They want action. This is why children love Christian Science. It involves action. It also involves discovery, the most important discovery of all: the nature of God and man's relationship to Him. In our Sunday School children learn how to search for Truth, and to find it; how to act on these discoveries, and to prove their worth. Your child will enjoy being with the "discoverers" in our Sunday School classes. They are welcome, any time.

Readers Write Guides Grateful EDITOR: On Saturday, Nov. 15, over 170 dads and sons of the Farmington "Y" Indian Guide program cleaned up the 12-acre YMCA property at 12 Mile and Farmington Rd. On behalf of the Indian Guides I want to thank Tom and County Dodge and O'Brien for providing trucks to carry away the trash collected, and Thompson-Brown Co. for the snacks after this community service project was completed. We sincerely appreciate the cooperation received. JERRY EVANS Assistant Federation Chief
