A new way to earn more money for your money.

# How to earn bonus interest with a Michigan Money Market Certificate.

Invest in a six-month, Michigan Money Market Certificate.

Now, no other bank or savings and loan pays more on Michigan Money Market Certificates than the Michigan National Banks. A minimum deposit of \$10,000 is required and the rate at which the certificate is purchased is fixed until maturity.

THIS WEEK'S RATE: Effective May 31 thru June 6, 1979

**9.409%**  
Annual interest rate.

**9.769%**  
Effective annual yield.\*

\* The effective annual yield is subject to change at renewal and assumes that the interest rate remains unchanged and that both the interest and principal are reinvested.

Federal regulation prohibits the payment of a time deposit prior to maturity unless three months of interest is forfeited and interest on the amount withdrawn is reduced to the passbook rate. New federal regulation also prohibits the compounding of interest on these certificates.

1. Then deposit the monthly interest into a regular passbook savings account.

2. The result: Bonus interest on your interest.

Your interest continues to earn bonus interest in your regular passbook savings account at the rate of 5.0% annually - continuously compounded to provide an effective annual yield of 5.20%.

Then, when your Michigan Money Market Certificate matures, you can take all of the interest you've earned plus your principal, reinvest in a new certificate at the prevailing rate, and start earning more money for your money all over again.

For more details on this important service, call or visit any office of the Michigan National Banks today.
