NOW!

A way to earn extra interest dollars with your 8.873%* Michigan Money Market Certificate.

1.

Here's how Michigan National Banks can pay you extra interest ... automatically!

Deposit \$10,000 in a 182-day Michigan Money Market Certificate. We'll transfer the monthly interest from your certificate into a regular 5% passbook savings account. You'll earn extra interest on your interest! Continuous compounding of interest isn't allowed on money market certificates. But it is allowed on regular passbook savings. And since interest on your certificate can be paid monthly, we will automatically deposit that interest in your passbook savings account. When your Michigan Money Market Certificate matures, you can take all the interest from your regular passbook account, plus your principal, and reinvest in a new certificate at the prevailing rate.

2.

Michigan Money Market Certificates pay you the highest bank interest.

No other bank pays more on Michigan Money Market Certificates than the Michigan National Banks. A minimum deposit of \$10,000 is required and the rate at which the certificate is purchased is fixed until maturity.

THIS WEEK'S RATE: Effective June 21 thru June 27, 1979
8.873%
Annual interest rate.

9.199%
Effective annual yield.*

*The effective annual yield is subject to change at renewal and assumes that the interest rate remains unchanged and that both the interest and principal are reinvested.

Federal regulation prohibits the payment of a time deposit prior to maturity unless three months of interest is forfeited and interest on the amount withdrawn is reduced to the passbook rate. New federal regulation also prohibits the compounding of interest on these certificates.
