

THE SKY'S OUR LIMIT,

AND SO IS THE SEA.

Clouds make wind tunnels for pilots, soaring above them. Mirror to these skies, the sea tempts blue-water helmsmen. Whether you fly or sail, just one watch is right for navigators in both worlds: the Rolex GMT-Master in stainless steel. With its 4-hour hand and rotating bezel, it shows precise time simultaneously in two time zones. This self-winding 30-jewel chronometer is also pressure-proof down to 165 feet in its impregnable Oyster case.

Spectator comfort assured by set-ups at Oakland Hills

A ticket entitles the holder to free parking on the Oakland Hills Country Club North Course as long as space is available — on a first come, first served basis.

However, weather conditions may force the club to prohibit parking on the North Course. In the event of rainy weather, the club assumes no responsibility for providing additional parking.

Entrance to the North Course parking is off Maple Road, between Telegraph and Lahser roads. Signs along the street will mark the entrance.

Special facilities:

- Approximately 3,500 bleacher seats are available at spectator locations in the practice green area, 10th green, 12th green, 16th green and 18th green.
- Numerous leaderboards for up-to-the-minute standings of the leaders will be on the course.
- Free sheets will be available, showing which golfers are paired together. A course map and spectator tips will also be available.
- More than 80 modern comfort stations will be on the grounds.

• First Aid headquarters will be to the west side of the 18th fairway.

Suggestions:

- Wear shoes that are comfortable for walking and standing.
- Cameras, radios, coolers, step ladders and folding chairs are not permitted on the course during championship rounds. Cameras are allowed during practice rounds.
- Shirts must be worn at all times.
- No spikes are allowed in the clubhouse.

Ecology:

- Trash containers will be all over the Oakland Hills Country Club course and grounds.

Weather:

- Check forecasts for conditions predicted and dress accordingly.
- In case of lightning: A) Seek shelter in wooded areas and avoid isolated trees; B) Seek lower ground and depressed areas and avoid hilltops and high open spaces; C) Do not hold metal umbrellas or metal spikes.
