One Woman Told Us:-

"Five minutes in the morning with my Electric Iron makes wash day so much lighter."

This woman realized how often blouses, frocks and even lingerie found their way into the laundry bag ahead of time, just slightly mussed.

Even a hint of untidiness made dainty things unwearable and added to the weekly washing.

Now she uses an Electric Iron; with just a twitch of the switch and a few moments of gentle ironing, crumpled garments become smooth and lovely—together wearable!
