Four Receive GED Diplomas

Four Army youths who have recently completed military service have been awarded high school diplomas by Farmington Public Schools through the General Education Development (GED) program. GED is a program offered by the military which allows its members to complete high school training in an abbreviated period of time while in the service.

Servicemen participating are released from duty to take the courses at the military installation. An examination is given at the end of the course which qualifies the serviceman for a GED diploma which is then granted by his local school district.

Local veterans awarded GED diplomas are Larry Brock, Andrew Gladd, Elmer L. Miracle and Paul N. Sawyer. The four are now eligible to pursue their military benefits further by attending college through the GI loan program.

Who could think of refurbacing at a time like this?

Seems like a funny time to talk about replacing a furnace, huh? Actually, warm weather's the best time to make home repairs. Like replacing a cranky old heating system with modern electric heat.

And now's an especially good time to convert. Right now, your Edison-Approved Electric Heat Contractor will give you \$100 for your old heating system when you change to electric heat.

Why electric heat? It's comfortable—really comfortable. No chill about it. No moment nor blast of hot, dry air the next.

And operating cost is guaranteed. Call Edison for details, and some names of Approved Electric Heat Contractors.

So if your old furnace won't make it another winter, remember now's the best time to refurbace to modern electric heat.
