

Nothing Mysterious

There is nothing mysterious about modern banking methods. Most people know all about how to do business with a bank, but to those still unfamiliar, we offer the following information.

To open an account, merely bring your money to the bank. We will credit you with the amount and will give you a pass book on which the amount of your deposit will be entered. We will also give you a check book. When you wish any of the money or desire to pay a bill, write the check for the amount and sign it. When the check reaches the bank we will pay it, charging it to your account. Every additional deposit of funds will be entered on the pass book which you have. We keep a complete record and do all the book-keeping free.
