

## When Prices Fall

It is easy to do business on a rising market. Then everything is lovely. But when prices start to fall, there is a different story.

Then the dollar becomes hard to obtain and its purchasing power correspondingly increases. All are willing to see prices come down, but all want to see the reduction made on what the other fellow has for sale, first. As the dollar increases in value it is more and more worth saving. We invite you to open an account at our bank, where your valuable dollars will be safe.
