WILLYS-KNIGHT

At a Low New Price of

\$1375

This car of refinement and quality is now within the means of those who have considered such a car beyond their hopes

It combines, in addition to the advantages of other fine cars, all of the advantages of the Knight type sleeve-valve motor.

This Willys-Knight motor actually improves—grows more powerful with use—a quality which distinguishes it from all other motors.

It requires no adjustments. It is more flexible—and it always operates quietly.

It is more powerful than any other motor of equal size, and because of this, the Willys-Knight car consumes less gasoline than any other car of equal power and weight.

These important advantages added to the beauty, economy, road comfort and extraordinary long life of the Willys-Knight car explain the enthusiasm of more than 50,000 owners.

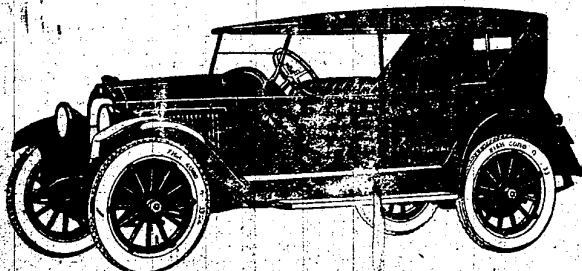

Touring reduced \$150; now \$1375. Roadster reduced \$125; now \$1350. Coupe reduced \$320; now \$1875. Sedan reduced \$300; now \$2095. J. O. B. Toledo
